Congratulations! You're halfway to the 1000 book goal!
Come into the library for a special prize and your next reading log.

Books 401-500

My favorite book:

If you read only one book at bedtime every night for 3 years, you will have read 1095 books. If you read 3 books a day you'll read 1095 books in only one year.

Color in a star for each book you and your child share. If another family member reads a book with your child, write his/her name on the provided line. Reading together is a family affair!

SINGING

Singing slows down your natural speech patterns, allowing your child to hear the sounds inside of words.

The more children ages 0-5 hear books read to them, the more prepared they will be to learn to read upon reaching kindergarten.
