If you read only one book at bedtime every night for 3 years, you will have read 1095 books. If you read 3 books a day you'll read 1095 books in only one year.

Color in a star for each book you and your child share. If another family member reads a book with your child, write his/her name on the provided line. Reading together is a family affair!

TALKING

It's never too early to begin talking to your child. It helps early brain development and babies love to listen to your voice.

Reading aloud to children, from the very beginning of a child's life, creates the best environment for success in school.
