DEFINITIONS

Basis Documents. These are the organization’s foundational documents such as mission, vision and values and principles. The structure of the policy manual is that documents of a “priority” nature, such as Basis Documents, Governance and Service areas appear first. All sections thereafter are alphabetical under major categories.

Branch Library. Branch libraries are distinguished from member libraries. Branch libraries are under the governance of the High Plains Library District Board and the Executive Director. See more about this in the Governance policy.

District. The official term is the High Plains Library District. The term “District” is used in different ways. It can refer to the administration and board of the Library District. It sometimes refers to the branches and outreach services. Or it can refer to all of the entities involved – administration, branches, outreach and member libraries. This is further described under the Governance and Service Areas policies.

Limited public forum. This is a legal concept. A public forum is a place that allows the free exercise of the right to speech, public debate and assembly. A *limited* public forum, such as libraries, these freedoms may be limited by time, manner or location. An example is bulletin boards: the length of time an item may be displayed is limited, the size (manner) of the poster can be limited, and the location for where items can be displayed can be limited. Several policies are impacted by the limited public forum. Examples are the Meeting Rooms, Photography and Videorecording, Posting and Distribution, Soliciting, Free Speech and Fundraising Activities policies.

Member library. The District has two types of libraries: branches and members. Member libraries have their own Board and operate independently. These community libraries do receive services from the District, and the revenues collected for their areas are distributed through the District. See more about this in the Governance and Service Areas policies.

Policy. This is explained more completely under the section on Policy Process. A policy is a statement of the organization’s position or direction on an issue. All policies required Board approval. The audience for a policy is the public.

Procedure. This is explained more completely under the section on Policy Process. A procedure consists of detailed instructions for implementing a policy. Procedures do not require Board approval. The audience for a procedure is the District staff. Most procedures are included in the Procedures Manual.

Region. The District area is subdivided into six areas, called regions. These were not an original part of the District, but were established to ensure representation on the Board of Trustees from all areas. These are further described in the Governance and Service Areas policies.

Service areas. The District has different strategies to ensure that all of the populations of the District receive library services. They may be served by branches, by members, or by the Mobile and Outreach services. A service area refers to a population that is serviced by one of these three strategies. These are described more completely under the Service Areas and Service Delivery policies.

Statements. . Statements are a particular type of policy. They are associated with the Basis Documents. They are major expressions of District philosophy of foundational issues.

THE POLICY PROCESS

Policies and procedures of the District originate from several sources. The most common source is District staff, in response to an observed need for direction in a particular area. They may also be requested by the Board or the Executive Director.

Policies and procedures are regularly reviewed to ensure that there is alignment with actual practice. When practice differs, either the policy or procedure is changed to reflect actual practice, or the practice is rectified to abide by the policy or procedure.

Distinction between policy and procedure

The Board of Trustees sets the policies of the District. A policy is a statement of the organization's position or direction in some particular area of operations or services. All policies require approval by the Board of Trustees. The audience for a policy is the public.

Procedures provide the instructions and details of how a policy of the Board is to be applied. Procedures are written by staff and do not require Board approval. The audience for procedures is District staff.

Stages of policy and procedure development

There are ten stages in developing policies and procedures. Not every policy or procedure requires all ten stages, depending on the subject matter. The Patron Experience Specialist is responsible for overseeing and managing the process. These stages are as follows:

- **Initial scan.** This stage consists of a scan of all information and documents pertaining to the topic that can be found on the District's website (MyLibrary.us) and the staff internal network (MyHighPlains).
- **Organizing.** This stage consists of arranging all of the information discovered. This stage is intended to capture any aspects of the issue that need to be addressed.
- **Research.** This stage explores different approaches that have been used to address the issue in question. It may involve an examination of how other libraries have addressed an issue, for example. It often entails examining emails and communications among staff concerning the issue. This stage may also identify other aspects of the issue that need to be addressed.
- **Writing or updating.** In this stage, the initial draft of the policy and/or procedure is written. It may involve rewriting of an existing policy or procedure.
- **Review and approval.** After the initial draft is written, it is reviewed by various other groups and individuals, depending on the topic.

Library Managers and Patron Services Supervisor (PSS) groups. Since most policies and procedures involve direct public service, these two groups are the most frequently involved in review, discussion, and amendment of draft policies and procedures. This group includes the Associate Director of Public Services.

District Support Staff. This includes the Executive Director and staff that report to the Executive Director. This includes Managers of the following departments: Human Resources, Finance, Community Relations and Marketing, Community Engagement and Strategies, Information Technology, Collection Resources, Foundation and the Associate Director of MOVE. They are

consulted if a policy or procedure will impact their department, or if there is some aspect that requires their expertise.

Attorney. The District’s attorney is consulted if the policy or procedure has some legal aspect or requires legal interpretation.

Board Governance Committee. All policies are reviewed by the Board of Trustees Governance Committee before coming to the full Board. This group may or may not make changes to the policy; their usual role is to identify and discuss those aspects of the issue that should be highlighted, and possibly changed, in the presentation to the Board.

Board of Trustees. All policies must be approved by the full Board. The Board may request amendments to the draft policy that is presented by staff.

- **Formatting.** In this stage, the approved policy or procedure is formatted to be consistent with the structure of the Policy or Procedure manual. All website links are checked to be sure they are accurate and functional. The policy or procedure is then inserted into the respective manual.
- **Communicating the change.** When the policy or procedure has been adopted and inserted in the manual, District staff is notified of the new policy and/or procedure. This typically consists of an announcement that appears on MyHighPlains.
- **Coordinating with website.** This is a second scan of the MyLibrary.us website. Information on the website is changed to be consistent with the policy or procedure amendments.
- **Coordinating with MyHighPlains.** This is a second scan of the MyHighPlains network. The purpose is to identify any drafts or outdated information concerning the policy or procedure and remove it or archive it to eliminate confusion as to what information is authoritative.
- **Closing out.** This stage consists of going through a checklist to make sure that all of the stages have been completed.

BASIS DOCUMENTS

High Plains Library District introduction

The High Plains Library District (originally established as the Weld Library District) is a special taxing district that was voted into place by the Weld County residents in 1986 to improve library service to residents within the boundaries of the District through the sharing of books, staff, and tax revenue.

The District serves over 217,000 residents of Weld County and parts of neighboring counties and covers a geographic area of almost 4,000 square miles. Areas not included in the District are the areas in the Clearview (formerly the Windsor-Severance) Library District and the town of Dacono.

In July 2008, as part of a re-branding project, the High Plains Library District Board of Trustees approved the recommendation to rename the Weld Library District to the High Plains Library District.

The High Plains Library District is comprised of branches, member libraries, and outreach services. The branch library system is governed by the High Plains Library District Board of Trustees. Each member library is governed by their own separate Board of Trustees.

The policies and provisions in this manual are the policies of the branch library system under the governance of the Board of Trustees and in compliance with Federal and State laws. Member libraries have their own policies.

In conducting its services and programs, the library will maintain non-partisanship and objectivity to support the individuality of the residents and will provide its service in an atmosphere of warmth and welcome. The facilities and grounds will provide an environment that is welcoming, physically comfortable, clean, safe and ADA-compliant.

The High Plains Library District will seek to understand the information needs and wants of all residents and use every practical means to satisfy them in accordance with guidelines adopted by the Board and included in the following statements of the American Library Association: Library Bill of Rights, Freedom to Read, Freedom to View.

The High Plains Library District Policy Manual is regularly reviewed by staff. Revisions, additions and deletions are approved by the High Plains Library District Board of Trustees.

Operating Principles for Staff

The staff of the High Plains Library District uses the following principles to direct our decisions:

- On a daily basis, the library anticipates and meets community needs.
- No High Plains Library District community goes unserved.
- High Plains Library District service delivery aligns with individual patron’s preferences.
- High Plains Library District patrons find what they need at first contact.
- We continuously innovate.
- We strive for yes.

Each of the operating principles was developed by considering the potential gains and losses we may see if we use these as our primary tool for directing our decisions. Operating principles increase their value through ongoing dialog, review, and potential revision to best meet the needs of our community and organization.

Public Statements policy

Freedom of expression is the cornerstone of American society. Individuals, organizations, and corporations are free to publicly state their thoughts or positions.

Public libraries are different. *Protecting* freedom of expression is the cornerstone of public libraries. Stated another way, the stand of libraries is for *freedom of expression*. This limits board and staff from expressing a stand for *one point of view*. The implication is that the Board of Trustees and District staff must consider carefully whether and when to make a statement on matters of public concern.

The Board's Ethics Policy

Each member of the Board of Trustees of the High Plains Library District signs an Ethics Policy. They are guided by and adhere to the ethics policy. The ethics policy addresses non-discrimination, prohibition from using their office to obtain privileges or advantages for themselves, not being swayed by partisan interests, or by public pressure or fear of criticism. It also states Trustees must distinguish clearly in their actions and statements between personal philosophy and those of the District. Within the parameters of the Ethics Policy, the Board considers whether to make a public statement in the following areas.

Policy decisions

The Board of Trustees sets the policies of the District. Every policy is a statement of the organization's position and direction concerning a matter of public concern. What sets these apart from other public issues is that they address how the organization will conduct the business of the District with an explanation of the reasoning.

Elections and ballot issues

The Board will not make a statement for or against the election of any candidate, as being a partisan interest. The Board will make a statement only on those ballot issues that have an impact on the welfare of the District, positively or negatively, and with particular regard to financial impacts. The Board will not make a statement on bond issues of other organizations.

Health and safety issues

The Board may make statements on matters that affect public health or safety, and in particular the health and safety of library patrons and staff.

Social issues

This area presents the greatest challenge to a Board because libraries are an integral part of the life of the *community and society*. Social issues are those most apt to have the strongest opposing viewpoints. As noted earlier, the role of the library is to protect freedom of expression *by all parties* without itself expressing a stand for *one point of view*.

These issues are those most apt to place the Board at risk in violating its Ethics Policy, such as being swayed by partisan interests, public pressure, fear of criticism, and personal philosophy.

In general, the Board will make statements on social issues only when they address the *organization* itself.

Considerations for policies or public statements

This section is a series of questions to assist the Board in determining whether to issue a public statement. The Board may choose to appoint an ad hoc committee to apply these considerations and present a recommendation to the Board.

- Does making a policy or public statement protect the freedom of expression for the whole community?
- Does making a policy or public statement appear to be taking a stand for one point of view?
- Could this policy or public statement be construed as violating the Board’s Ethics Policy?
- Is this policy or statement necessary to convey to the public how the District will operate?
- Should this take the form of a policy or public statement, or something else?
- Is this a statement about the *organization*, or a statement about the *community*?
- Is this a statement about another organization?
- Is this an issue affecting public health or safety?
- Are statements by federal, state or local law or regulatory agencies sufficient expression, or is a policy or statement needed for how the District interprets and applies the law?
- What is the compelling need for this policy or public statement?

Patron Rights and Responsibilities statement

Rights

The High Plains Library District does not discriminate and provides equal library access and employment opportunities regardless of age, sex, sexual orientation, gender identity, marital status, race, color, religion, national origin, disability, genetic information, or any other status protected by law.

We provide equal employment opportunities to all individuals based on job-related qualifications and ability to perform a job.

Access to the library and library materials are free for all and for everyone's enjoyment. The High Plains Library District supports the rights of all patrons to:

- Have a clean, comfortable, safe, and pleasant environment.
- Have free and equal access to information.
- Receive friendly, courteous and respectful service.
- Privacy for patron records and use of the library except for instances detailed in Colorado Revised Statute 24-90-119
- Use the library without discrimination.
- Use the library undisturbed without threat of harm, invasion of property, or interference (in accordance with library regulations and the law).

Security and safety

High Plains Library District will take necessary measures to protect the patron's right of access, ensure the safety of patrons, staff, and materials in District facilities. Measures include, and are not limited to:

- Requesting adjustment to behaviors to meet reasonable expectations of staff and community norms
- Removing persons from facilities due to causing a disturbance to others. Removal may range from leaving for the day to permanent suspension
- Using monitoring devices in locations for safety and theft concerns
- Working with local law enforcement to handle situations as deemed necessary
- The library is not a place of refuge from law enforcement after being accused of committing an illegal act. Library staff will contact the police if the situation occurs.

Unacceptable use

Unacceptable use of the High Plains Library District includes and is not limited to:

- Activities that present health or security risks
- Assuming the identity of another person without the explicit authorization of the other person
- Copyright Law or license violations
- Damage or alteration of library property, including and not limited to books and other library material; the physical building; software or hardware components of a local or remote computer or computer systems and/or use of programs that infiltrate a computer or computer systems
- Disruption of the normal flow of operations
- Illegal or criminal activities, including the Library District's electronic resources
- Interference with the use or enjoyment of the library by others

- Viewing of visual materials that might be considered offensive to others in a public area

Suspension

If, after being informed of acceptable behavior and use of the library, a patron continues to engage in any of the above actions, suspension from the library, loss of library privileges, removal from the library and/or criminal prosecution or other legal action may result.

- Suspensions for two months or more may be appealed by writing a letter to the Executive Director explaining the reasons for appealing the suspension.
- The Executive Director will respond within 30 days with the decision to uphold the suspension or approve the appeal.

Children

To ensure that children have a safe, positive and fun library visit:

- Children 12 years of age and younger always need to be with a responsible person in all areas of the library.
- At the discretion of a parent/guardian, children older than 12 may use the library, unaccompanied, for a reasonable length of time. Library-appropriate behavior is expected.
- Parents/guardians, not library staff, are responsible for the safety and behavior of their children at all times while using the library.
- Parents/guardians will be notified of disruptive behavior. In the event children are still on library premises after closing and parents/guardians cannot be reached to pick them up, the local Police will be called.

GOVERNANCE

Governance policy

Colorado Library Law

The High Plains Library District is subject to Colorado Revised Statutes [C.R.S. §24-90-101 to 119](#) commonly called “Colorado Library Law.”

A library district is one of four types (municipal, county, joint library or library district) of public libraries permitted under the law. Key sections of the law pertaining to establishment, funding, dissolution and trustee powers and duties are as follows:

C.R.S. §24-90-103 Definitions

C.R.S. §24-90-106 Participation of existing libraries in the formation of new libraries

C.R.S. §24-90-106.3 Inclusion of a governmental unit into an existing library district procedure

C.R.S. §24-90-106.5 Establishment or removal of a municipal library in an existing county library or library district

C.R.S. §24-90-107 Method of establishment (of a municipal, county, joint library or a library district)

C.R.S. §24-90-108 Board of trustees of public libraries

C.R.S. §24-90-109 Powers and duties of board of trustees

C.R.S. §24-90-112 Tax support – Elections

C.R.S. §24-90-112.5 Issuance of bonds

C.R.S. §24-90-113.3 Contract to receive library service

C.R.S. §24-90-114 Abolishment of libraries

C.R.S. §24-90-116 Existing libraries to comply

Structure

The High Plains Library District was formed in 1985 and has a governance structure that is unique in the state of Colorado. The District consists of *branches*, governed by one executive director and one board of trustees. It also includes *member libraries*, each of which have their own board of trustees and director. The governing authority of a member library receives funds according to a formula established when the District was created. A portion of the tax generated from the member service area is retained by the District for the purpose of district-wide services.

Definition of District

Because of this structure, the term “District” is used in different ways. It often refers to the administration and board. It sometimes refers to the branches and outreach services. Or it can refer to all of the entities involved – administration, branches, outreach and member libraries.

Board representation

The geographic area of the High Plains Library District is divided into the following regions, and each has its own representative on the Board of Trustees. Trustees serve a maximum of two terms, four years each. A trustee’s term expires on December 31.

Region 1 – Erie, Frederick, Firestone

Region 2 – Gilcrest, Fort Lupton, Hudson, Keenesburg, LaSalle, Lochbuie

Region 3 – Berthoud, Johnstown, Mead, Milliken and Platteville

Region 4 – Greeley, Evans, Garden City

Region 5 – Ault, Eaton, Nunn, Pierce, Carr, Rockport, Lucerne

Region 6 – New Raymer, Kersey, Grover, Galeton, Briggsdale, Buckingham, Keota, Masters, Deerfield, Barnesville, Hardin

At large representative

Board member selection

The *selection committee* for the High Plains Library District Board of Trustees does not correspond to the *regions* of the District. The selection committee consists of one elected official from the governmental entities that established the District: Town of Eaton, Town of Ault, City of Greeley, Town of Hudson, Weld County Commissioners. The City of Fort Lupton and RE-8 (Fort Lupton) Board of Education collectively send one elected official. The City of Evans was added as one of the establishing entities in 2017 as part of a settlement between the District and member libraries. The details of the nomination process are spelled out in the bylaws of the Board, noted below.

Board bylaws

The Board of Trustees adheres to the Ethics Policy and Bylaws which conform to C.R.S. §24-90-108 and 109. The bylaws, as well as other documents pertaining to the Board of Trustees can be found on the MyLibrary.us website at [MyLibrary – Board of Trustees page](#).

Open Records Requests

High Plains Library District is committed to the principle of openness and accessibility. As such, the District commits to fulfill every request for public records as efficiently and expeditiously as possible and within the requirements established by the [Colorado Open Records Act \(CORA\) C.R.S. §24-72-201 et seq.](#) and the minimum requirements set forth by the [Colorado State Archives Special Districts Records Management Manual](#).

The following procedures are intended to facilitate requests for public records responsibly and efficiently, to maintain the integrity of the District's records, and to engage effectively with the public. This policy is therefore subject to the District's legal counsel.

Requests for public records

Requests will be processed by the Office of the Executive Director, who is the designated custodian of records. General emails to the District or inquiries made on the District's social media sites will not be treated as open records requests pursuant to CORA. When practicable, open records requests should be submitted in writing or made via the District's [Open Records Request Form](#), which is available on the High Plains Library District website.

Prior to submitting a records request, please check the District website to determine whether the records sought are already available online.

All requests must contain the following information:

- The name and preferred contact information for the requesting party.
- A description of the records sought. (Please describe as specifically as possible, including applicable date ranges and source of information, if known.)
- Preferred method of delivery (email, regular mail, in-person inspection, etc.).

Responses to requests

The Office of the Executive Director is responsible for responding to the requesting party in a timely manner. Responses will be provided in the format in which the documents are maintained whenever legally, technologically, or practically feasible. The requesting party will be notified if the requested documents are not available, reside with another agency or if the records are not covered by CORA.

Responses to requests will include information currently in the possession of the District. Responses to requests will not routinely include the restoration of the District systems that may be available on backup tapes or other means of disaster recovery. Additionally, responses to requests will not routinely include data that is automatically created, stored, or retained on an individual computer or on network equipment or servers, such as email metadata that is not otherwise imprinted or stored as part of the visible content of an email message, logs, web traffic statistics, browser cookies, browser cache, server logs, browser history, or firewall logs.

If review of original documents is requested, the records custodian may impose certain procedures to protect the integrity of the public record, including supervision by a District employee within the area where the records are stored and/or maintained. The records custodian may also establish a designated area or schedule for a particular time of day so as to not unduly disrupt the day-to-day activities of that specific office or department.

Requests received after the close of business will be considered to be received on the next business day.

The District will comply with the reasonable response timelines set forth in CORA. Every attempt will be made to fulfill open records requests within three (3) working days. If the request cannot be filled within three working days, the requestor will receive notice from the records custodian that additional time, up to seven (7) working days, will be necessary.

The District will only produce documents, within their possession, as permitted by CORA and those which do not exceed the minimal standards set forth by the [Colorado State Archives Special Districts Records Management Manual](#). Documents that are prohibited from Disclosure under CORA will not be released, including but not limited to:

- [C.R.S. §24-72-204\(3\) \(a\) \(V\)](#) Library and museum material contributed by private persons, to the extent of any limitations placed thereon as conditions of such contributions.
- [C.R.S. §24-72-204 \(3\) \(a\) \(VII\)](#) Library records disclosing the identity of a user as prohibited by section [24-90-119](#).

Fees charged

High Plains Library District seeks to meet public information requests in the most economical fashion possible. The fees charged by the District will be consistent with the provisions of CORA.

Standard fees for records requests include copy charges, research and retrieval time, and actual costs associated with fulfilling the request. Research and retrieval time may include, but is not limited to: actual costs involved in the gathering of documents, costs associated with specialized IT support, and staff time required to research, locate, retrieve, and review records, and create or run records in electronic or digital format. The nature of the request dictates the potential fees and costs incurred.

Pursuant to [C.R.S. §24-72-205\(6\)](#) there is no charge for the first hour of time for research and retrieval of records.

| Copies | |

|-------------------------------|---------|
| One hour or less | \$0 |
| More than one hour | \$33.58 |

| Mailing Expenses | |
|-------------------------|-------------|
| Mailing expenses | Actual cost |

Deposits

If the fulfillment of a request is likely to incur fees in excess of \$30.00, the records custodian will attempt to provide the requesting party with an estimate of the likely fees to be generated in fulfilling the request. High Plains Library District may require payment of the estimated fees prior to any staff time being expended on responding to the request. Requesting parties will be responsible for any actual costs incurred in excess of the deposit and will be reimbursed for any estimated costs that are not actually incurred.

Retention policy

This policy is a companion to the Open Records Requests policy.

Retention refers to the length of time governmental agencies store information. Retention policy pertains to records of the organization, as compared to personal information.

As with many policies, retention is an issue of balancing objectives. Records are retained for longer periods of time for the purposes of government transparency, historical documentation, legal and contractual issues or public health and safety. In the case of personal information, records are typically retained only as long as the transaction is active in order to preserve privacy and minimize identity theft.

Colorado's Retention statute

Retention of government records is governed by Colorado statute (C.R.S. §24-80-101 et. seq. – State History, Archives and Emblems) and retention and disposition schedules promulgated by the Colorado State Archives.

In 2019, the District adopted the Colorado State Archives Special Districts Records Management Manual. This document identifies the period of time to retain records concerning facilities, finances, fleet, equipment, general administration, governing body, historical, district boundary and planning, licenses and permits, litigation and legal counsel, personnel and property.

District application

- In adopting the Colorado State Archives Special Districts Records Management Manual, the District agrees to use the retention periods stated in the Manual.
- The District will maintain a schedule that identifies the types of documents, retention period, responsible party, and actual records available. This is done for compliance and to facilitate requests for Colorado Open Records Act (CORA) requests. See the Open Records Requests policy.
- As noted in the Open Records Requests policy, the statute on retention does not apply to library and museum material contributed by private persons, and library records that will disclose the identity of a user. In these cases, the District stance is to delete personal information that is no longer needed. This is addressed more completely in the Personal Information Protection policy.

Service Areas

Policies pertaining to service areas of the High Plains Library District divide into five inter-related topics:

1. District boundaries
2. City and town boundaries
3. Regions
4. Revenue collection
5. Types of libraries and service delivery

District boundaries

In the simplest terms, the boundaries of the High Plains Library District consist of Weld County and the portion of Boulder County that includes the Town of Erie. The boundaries exclude the Clearview Library District, in the Windsor and Severance area. It also excludes the Town of Dacono.

These boundaries define (1) the populations for which the District requires library services and (2) the areas from which revenues are collected.

City and town boundaries

The boundaries of cities and towns do not necessarily align with District boundaries. Residents of Longmont, Berthoud, Northglenn and Brighton are served by their own municipal or district libraries. But these cities and towns also have borders extending into the High Plains Library District area.

Region boundaries

The High Plains Library District is divided into six geographic areas, identified as Regions. These regions are established for the purpose of representation on the Library Board of Trustees. The Board of Trustees consist of seven members, one from each of the regions and one At-Large trustee. These regions are further described under the Governance Policy. See also the chart at the end of this policy.

Revenue collection

Each of the Regions includes school districts. School district and Region boundaries do not coincide. However, school district boundaries are important because they are used to define areas of property tax collection and distribution for the member libraries (see “Types of libraries and service delivery” below). The member libraries and their corresponding school districts are:

- Ault (Northern Plains) Public Library – Weld County School District RE-9
- Eaton Public Library – Weld County School District RE-2
- Fort Lupton Public and School Library – Weld County School District RE-8
- Hudson Public Library – Weld County School District RE-3J west of Weld County Road 61 including the towns of Hudson, Keenesburg and Lochbuie.
- Johnstown (Glenn A. Jones MD Memorial) Library – Weld County School District RE-5J but excluding the Town of Johnstown and those parts that are in Larimer County.
- Platteville Public Library – Weld County School District RE-1 south of Weld County Road 42 but excluding the Town of Platteville.

Property taxes are collected by the District from the entire District area. The District retains one-third of the amount collected from each member area; the remaining two-thirds are distributed to the respective member library.

The towns of Johnstown and Platteville collect the property taxes from their town boundaries and distribute the funds to those libraries.

Net property tax revenues available for the branches is based upon the gross property taxes minus the calculated revenue distribution to member libraries.

Types of libraries and service delivery

There are two types of libraries within the High Plains Library District: branch libraries and member libraries. Service delivery outside of library facilities is provided by the MOVE (Mobile, Outreach, Virtual Services and Events & Experiences) Department of the District.

Branch libraries:

- Are established according to the District's Facilities Master Plan.
- Are governed by the High Plains Library District Board of Trustees.
- Hours of operation, services and programs are determined by District Administration staff with consent of the Board of Trustees.
- Staff is hired by the District and receive pay, insurance and benefits from the District.
- Staff are governed by the policies of the District.
- Facilities are the property, by ownership or contract, of the District.
- Adhere to an annual budget approved by the High Plains Library District Board of Trustees.

Member libraries:

- Are established according to the Colorado Library Law and joined with other governmental units within Weld County for the purpose of creating the High Plains Library District.
- The service area was established in the Intergovernmental Agreement (IGA) that formed the District. These IGAs are updated regularly.
- Have their own local governing authority responsible for library operations.
- Hours of operation, services and programs are determined by the local library board. The member library may choose to participate in centralized services made available by the District.
- Staff is hired by the local library board. Payroll, insurance and benefits are the responsibility of the local governing authority.
- Facilities are owned and maintained by the local governing authority.
- Receive a designated portion of the property tax levy for library service. The local governing authority of the Member library receives funds according to a formula established at the time of the agreement to create the District. A portion of the tax generated from the service area is retained by the District for the purpose of district-wide services.
- The local governing authority budgets and accounts for these funds.

Mobile, Outreach, Virtual Services and Events & Experiences Services:

- Is governed by the High Plains District Board of Trustees.
- Staff services, programs, pay, insurance, benefits, policies and budget operate in the same way as for branch libraries.
- Allow the District to provide library services where geographic, economic, linguistic, physical or other barriers are present.

- Work with and through community organizations, government facilities, and schools to provide library materials, programs and services.
- The methods used by the Department are more fully described under the separate policy on Mobile, Outreach, Virtual Services and Events & Experiences Services.

Chart

The chart below, taken from the Board of Trustees bylaws, identifies the boundaries, communities, school districts and libraries in each of the District Regions. The chart does not include all populated places of each region.

Service Areas Outside of the District

The library recognizes the importance of the Colorado State Library and the Colorado Library Consortium (CLiC) as coordinating agencies among libraries in the state and region and endorses the multi-type library system concept. The High Plains Library District will, when appropriate, cooperate with all types of libraries to make the best use of public monies and provide optimum service.

Colorado Libraries Collaborate (CLC) rules

The High Plains Library District offers reciprocal borrowing privileges to non-district residents who are Colorado Libraries Collaborate (CLC) program participants.

Under the terms of the program, the borrower must reside in the state of Colorado and must pay local taxes that support a Colorado library, or must be a member of another CLC member library in order to receive CLC privileges. CLC borrowers are not charged a non-resident fee when borrowing from a participating CLC library.

CLC Borrowers must have a valid photo I.D. and proof of address to obtain a High Plains Library District card. For acceptable forms of photo ID and proof of address, see [Get a Library Card](#) on the High Plains Library District website.

- CLC borrowers will be informed about High Plains Library District rules and policies
- CLC borrowers are responsible for understanding and abiding by the rules and policies of High Plains Library District.
- CLC borrowers are responsible for all materials checked out on their cards.
- Any materials borrowed by a CLC borrower are subject to the High Plains Library District loan policies and due dates.
- It is the CLC borrower's responsibility to be in good standing at his/her home library. Cardholders not in good standing may not be eligible to borrow materials from the High Plains Library District.
- CLC borrowers may check out 10 items at a time.
- CLC borrowers may not use the Specialty Checkout service, Prospector or the Interlibrary Loan (ILL) service.

COLLECTION DEVELOPMENT

Scope of Collection policy

Collection development at the High Plains Library District is founded on the principles of intellectual freedom and equal access for all.

To meet the needs of the library's diverse community, the library strives to provide a collection that balances viewpoints across a broad spectrum of opinion and subject matter in formats suitable to a variety of learning and recreational interests and skills.

The three basic supporting documents used to achieve these principles are the American Library Association's [*Freedom to Read Statement*](#), the [*Freedom to View Statement*](#), and the [*Library Bill of Rights*](#).

Physical collection

The District selects and supports access to materials and resources on all subjects that meet, as closely as possible, the needs, interests, and abilities of all persons in the community the library serves.

Using selection practices that are flexible and responsive to the changing needs of the community, the library builds and maintains collections for the general public, while recognizing the needs of special population groups in the community. The collection provides an assortment of new and popular materials while retaining depth through a balanced variety of subjects in formats suitable to a variety of learning and recreational interests and skills.

Materials are purchased in the most appropriate and available format. Examples of the varieties of physical formats collected include books, magazines, and newspapers in print, and audiovisual materials such as DVDs, Blu-rays, books on CD, and music CDs.

The District regards its physical collection as one shared or "floating" collection that is distributed among the branch locations. When a circulating item is returned to one branch it is shelved at the library where it is returned. Mobile Services collections are housed separately from the general collection and are not shared among branches.

Online collection

The online collection, like the physical collection, reflects diverse viewpoints and needs of the community. Electronic formats selected include databases, e-books, e-audiobooks, e-magazines, and both downloadable and streaming video and music. Duplication of titles among different online delivery formats is minimized.

Special collections

The District purchases and maintains materials on the history of Weld County and Colorado that are of broad appeal and that will be a part of our regular floating collection.

In addition, the District maintains a Local History collection that is not shared among locations, consisting of adult nonfiction titles highlighting the histories of our communities and Colorado area to provide easy access for students, researchers, and history lovers. This diverse collection focuses on a special interest in developing areas pertaining to underrepresented and marginalized groups in Colorado history.

Genealogical materials include family histories, genealogies of local families, local newspapers, and cemetery records, and are housed in the Genealogy collection located in Greeley, Colorado. This collection is not shared among locations.

The District promotes access to archival materials through partnerships with local and county museums as well as historical and genealogical societies. Weld County stories are captured in digital audio format via Weldcast. Access to these stories is available through the District website.

Cooperative networks

The District participates in cooperative interlibrary loan networks, including the Prospector system of libraries in Colorado and Wyoming and WorldCat, the nationwide OCLC network. This expands the range of materials available to District users beyond what can be provided in any local collection while minimizing the purchase of materials expected to be infrequently used or of a low level of demand.

Criteria for Collection policy

Selection criteria

- Contemporary significance or popular interest
- Local significance of the author, creator, or subject of the work
- Reputation and qualifications of the author, creator, or publisher of the work
- Quality of content, including accuracy, timeliness, and literary/artistic merit as indicated by positive attention from critics and reviewers
- Relation to existing collections and other materials on the subject
- Cost, availability, and library materials budget
- Space required relative to the value the item contributes to the collection
- Suitability of format or physical form for library use

Materials need not meet all criteria to be selected. Recommendations for purchase from staff or the public are considered, with the criteria noted above being applied. Textbooks or other curriculum-related materials will be acquired only in subject areas where there is little or no material in any other format or where they substantially add to the collection.

The same general criteria apply to the selection of print and audiovisual materials. Some additional criteria are considered in the selection of digital formats:

- Ease of use
- Accessibility for multiple concurrent users and/or remote users
- Comparison of content and price with other available formats
- Accuracy and frequency of updates
- Technical requirements and compatibility with existing equipment and systems
- Technical support and training
- Licensing fees and agreements

Withdrawal criteria

The physical collection is continually evaluated for sustained value and usefulness. Items are withdrawn if they meet certain criteria:

- Damaged or poor condition
- Infrequency of use of a particular copy
- Number of copies exceeds level of demand
- No longer relevant to the needs and interest of the community
- More space required for newer materials
- Available elsewhere, including online or through resource sharing networks
- Out of date, inaccurate, or replaced by newer edition

Copyright policy

The High Plains Library District provides access to works that have legal protections for the creators of those works through copyright, licensing, patent, or trademark registrations.

The District will not knowingly purchase nor actively support access to bootlegged, pirated, or otherwise stolen content.

Rights and responsibilities of those wanting to duplicate content

Those wanting to copy, print, or otherwise duplicate works take personal responsibility to respect the rights of those who created them. Copyright details as outlined in copyright law under Title 17 of the United States Code are posted on library copiers/printers.

Those duplicating works assuming protection from “Fair Use” should know that they can be held liable for copyright infringement by the courts. To minimize risk, those copying materials under “fair use” should consider all of the following four factors:

- For what purpose is this being used? For example, is the use for commercial purposes or nonprofit educational purposes?
- What is the nature of the work? It is not likely to be deemed fair use if it is someone else’s private correspondence or if it is widely available in a copyrighted form. The courts most strongly protect creative efforts such as fiction, music, poetry, feature films, and other creative works.
- What is the amount and the substantiality of the portion being copied? Copying a small piece of the work can be deemed not fair use if that piece was critical to the purpose of the work. Meanwhile, a satire can be protected even if it uses a large portion of the original work.
- What is the effect of the use upon the potential market for or value of the copyrighted work? If the work is widely available through market avenues and a substantial or pivotal portion of the work is wanted, it is best to purchase the work.

Licensing protecting corporate interests

Online content and data access are usually obtained through licensing contracts. Signing a contract or clicking on a button saying one “accepts” the terms and conditions may mean that the user has agreed to not have access to copyright exemptions, as the contract takes priority over law.

Licensing protecting library services

The District does purchase Public Performance rights licenses for movie and music use in library spaces. In addition, the District maintains a collection of materials that are purchased for professional use, as physical items better align with the First Sale Doctrine of copyright law.

Fair use does not cover potential patent or trademark infringement.

Intellectual property owners concerned about copyright infringement

Those who believe their intellectual property has been copied in a way that constitutes copyright infringement, please submit a [High Plains Library District Comment, Suggestion or Question form](#). Please note in the form that this is for the Collection Resources Manager.

For a complaint to be valid under the Digital Millennium Copyright Act (DMCA), the following must be provided in writing:

- A physical or electronic signature of a person authorized to act on behalf of the copyright owner;
- Identification of the copyrighted work that is claimed to have been infringed;
- Identification of the material that is claimed to be infringing or to be the subject of infringing activity and that is to be removed or access to which is to be disabled, and information reasonably sufficient to permit the library to locate the material;
- Information reasonably sufficient to permit the District to contact the complainant, such as an address, telephone number, and email address;
- A statement that there is a good faith belief that use of the material in the manner complained of is not authorized by the copyright owner, its agent, or the law; and
- A statement made under penalty of perjury that the above information is accurate and that the complainant is the copyright owner or is authorized to act on behalf of the owner.

UNDER FEDERAL LAW, KNOWINGLY MISREPRESENTING THAT MATERIAL OR ACTIVITY IS INFRINGING MAY BE SUBJECT TO CRIMINAL PROSECUTION FOR PERJURY AND CIVIL PENALTIES, INCLUDING MONETARY DAMAGES, COURT COSTS, AND ATTORNEYS' FEES.

Please note that this procedure is exclusively for notifying the District that copyrighted material has been infringed and is intended to comply with the District's rights and obligations under the DMCA, 17 U.S.C. §512, but does not constitute legal advice. The complainant should contact an attorney regarding rights and obligations under the DMCA and other applicable laws.

District action on copyright infringement claims

The High Plains Library District does not take responsibility for the public's actions.

If a complaint regards District use of content for the District's purposes, the complaint will be reviewed with the District's legal counsel to determine appropriate action.

If the District receives notice from our Internet service provider that their services are being used to steal the intellectual property of others, the District will make a best effort to block that person from accessing the services. The patron in question can work with the library to discuss options.

Genealogy Collection policy

Genealogy collections should begin with available local history materials and local records for the community which the library serves. For the District, this includes all of Weld County and the town of Erie.

These collections include such items as family histories and genealogies of local families, any vital records available (births, deaths, wills, probate, etc.), local newspapers, maps of the area, cemetery records, county histories, collections of historical importance to the area, and access to the Master File Index. These items may be found in various formats, including microform, print, and digital.

The purpose of the collection is to support basic research needs of the community served, based on ethnic and religious backgrounds and countries of origin, while representing the majority, if not all, of patrons in the area.

The majority of this collection does not circulate and as such, has unique policies regarding its growth and maintenance.

Selection criteria

The following criteria are considered when adding materials to the collection:

- Geographic relevance
- Families of local interest
- Accuracy and ease of use of item
- Price, availability, and condition
- Digital access

Donations

Gifts and donations are important supplements to the collection. The library will accept gifts of materials relating to local families, local history, all of Weld County and Erie, and possibly Colorado in general. We will only accept items in good condition.

Collection maintenance

Genealogy resources are not weeded as aggressively as the regular library collection. Items may be replaced by newer editions or copies as they become available. Items in extremely poor condition may be removed for preservation.

Self-published Works policy

The library primarily purchases books published by commercial publishers that fit the library's selection criteria and priorities for selection. The District may also acquire self-published books or e-books when they include content that fits the library's collection and meets the selection criteria listed in the collection development policies.

E-books must either be available through the District's established e-book partners to be considered for the collection or donated to the library as a file in EPUB format, along with a signed license agreement.

The District gives strong consideration to local authors, and to works that have received a positive review in one or more of the major library review journals (e.g., Library Journal, Booklist, Publishers Weekly, etc.) or major local publications like the Greeley Tribune.

Email

Self-published authors wishing to recommend their works for addition to the library collection are encouraged to contact the Collection Development Department using the [High Plains Library District Comment, Suggestion or Question](#) form. The following information should be included:

- Basic information about the book: title, author, ISBN, publisher, date of publication, number of pages, and price.
- Link to the book's website and links to reviews or other coverage in the news media, if available.
- Brief description of the book, its intended audience and information about how or where to buy it.

Mail

Authors should not submit a review copy for consideration. Fliers or promotional materials may be mailed to the following address:

High Plains Library District
Attn: Collection Resources Manager
2650 W 29th Street
Greeley, CO 80631

Due to the volume of submissions, the District is not always able to notify an author if an item has been added to the collection or not. Authors may check the District catalog at Mylibrary.us to see if their titles are listed.

Review copies

If a review copy is sent to the District, it will not be returned and it is subject to our collection criteria. If it is added to the collection it will appear in our catalog. Materials that are not selected will be repurposed – resold for fundraising, recycled, or put to other uses.

Artwork policy

The High Plains Library District aims to build facilities which are aesthetically pleasing. The District also supports and encourages local artists. Accordingly, the District accepts donations and loans and makes purchases of artwork. More information concerning donations, purchases and loans of artwork may be found in the District's Artwork procedure.

In addition, the District may permit local artists to sell artwork in the library.

For other types of donations, see the District's Donations policy.

Definition

Art is defined in state law [C.R.S. §24-48.5-312 – Art in Public Places Program](#) as “original creations of visual art including, but not limited to: sculpture; painting (whether portable or fixed, as in the case of murals); mosaics; photographs; crafts made from clay, fiber and textiles, wood, glass, metal, plastics, or any other material, or any combination thereof; calligraphy; mixed media composed of any combination of forms or media; unique architectural stylings or embellishments, including architectural crafts; environmental landscaping; and restoration or renovation of existing works of art of historical significance.”

Art donations and purchases

- Artwork is selected based on alignment with the District's mission, décor, and availability of display space as determined by the Executive Director.
- Donated and purchased artwork will be formally added to the District's holdings of owned art.
- Donated and purchased artwork will not necessarily be displayed in the same location on a permanent basis.
- Donated and purchased artwork will be covered by the District's insurance.
- Items may be removed from the library location based on condition and whether the item fits with the library environment.
- An Art Accession form must be completed by the donor/seller.

Art loans

- Each branch has space for local artists to display artwork on loan.
- Artwork is accepted for a set period of time as determined by the Library Manager or designee.
- Loaned artwork will not be added to the District's holdings of art.
- Loaned artwork may be transferred to another location but is typically only in one location.
- Items with a value that is less than \$25,000 that are damaged or stolen while on display will be covered by the District's insurance. If the item is valued higher than \$25,000, the owner of the artwork is strongly encouraged to purchase additional insurance at their own expense. The District is not responsible for any damage done during transport, delivery, or placement.
- Individuals loaning artwork at any branch must complete an Art Exhibit Application.
- The application must be signed before any loaned items are placed on exhibit. The lender will be given a copy of the signed agreement.
- Artwork displays may be dismantled and stored by District staff if the owner fails to remove the display at the agreed-upon time or if the Library Manager or designee determines a need to remove the display earlier than planned and cannot contact the owner.

Artists selling artwork

- Local artists may be permitted to sell artwork at the discretion of the Library Manager.
- If the artist/collector is interested in selling art works, the price may be posted along with contact information.
- Those selling their items are asked to donate 15% of the monies earned to the High Plains Library District Foundation.

Outdoor flags

The High Plains Library District displays and maintains the United States and Colorado State flags on outdoor, lighted flag poles at all branch locations. The District displays the flags in accordance with the [United States Code Title 4 Chapter 1 – The Flag](#).

The District flies the flags at half-staff on the following days:

- May 15 Peace Officers Memorial Day
- Last Monday in May (Memorial Day)
- September 11 Patriot Day
- December 7 Pearl Harbor Remembrance Day
- By order of the President of The United States
- By order of the Governor of The State of Colorado

Inclement weather conditions may cause a delay in flags being lowered to half-staff.

Indoor flags

The High Plains Library District displays the United States Flag during regular board meetings of the High Plains Library District at all branch locations. Members of the public who want to display the United States flag during a meeting or event scheduled in one of the District’s meeting rooms may request it through the District’s online room reservation service under “Equipment.”

Lost and Found policy

The disposition of items left in the library depends upon the following:

- Prints and photocopies with sensitive personal information will be shredded immediately.
- Items presenting a health risk will be disposed of immediately.
- Library cards will only be retained for 24 hours and then shredded.
- Other items will be retained for two weeks from the date they are found.
- After two weeks, unclaimed flash drives are wiped clean of all data.
- Staff will attempt to contact the owner of wallets, purses, or other personally identifiable information such as drivers' licenses and social security cards. These items will be retained for two weeks.

The District cannot guarantee that a found item will be in its original condition.

Meeting Rooms policy

Purpose of meeting rooms

There are two primary purposes for the meeting spaces of the library:

1. To provide space for library-sponsored activities of interest to the public.
2. As a support of the First Amendment "right of the people to peaceably assemble", a community meeting place for the presentation, discussion, and exchange of information on a wide variety of ideas. Toward this end, the District rooms are intended to be used without cost.

Library-sponsored activities

Library-sponsored activities have priority over meetings booked by the public. It is rare, but it may be necessary to revoke a reservation when the room is needed for library purposes.

Open meetings

All library-sponsored activities are free and open to the public. Library programs are sometimes targeted toward age-appropriate or other specific audiences, such as storytimes.

There is no such requirement for meetings initiated by the public. A meeting can be restricted to select individuals.

Financial considerations

There is no fee to use the rooms. There are some finance-related issues to be aware of when reserving and using the rooms:

Cost of materials. On occasion, a library-sponsored event may collect funds to cover the cost of materials used, especially when the materials are given to a patron for their use.

Donations. A meeting organizer may charge a fee or sell products at their event. However, the District requests that 15% of the receipts be donated to the High Plains Library District Foundation, which is used to support programs and services of the District.

Deposits. A \$50 deposit is placed on the patron library account at the time they check in to use a meeting room. This is to ensure that the room is returned to the original condition. If these conditions are met, the deposit is removed at check out.

There is an additional \$250 deposit if the meeting requires computer and projection equipment. This deposit is removed at check out if there has been no damage.

Insurance. If the patron is reserving the meeting room for a program that has some physical risk (yoga for example), the patron should secure their own insurance. That insurance needs to identify the High Plains Library District as an additional insured. Patron needs to provide that and a Waiver of Subrogation to the District.

Account fines and fees. A patron is not restricted from reserving and using meeting rooms if they have excessive fines and fees on their account, or based on their type of card.

Permitted and non-permitted uses

Meeting rooms are available for booking by the general public during normal library hours provided they are not scheduled for library events.

All library facilities are smoke and vaping free zones. This ban includes all forms of tobacco and e-cigarettes.

Alcohol use is not permitted. Alcohol may on occasion be allowed at events when expressly pre-approved by the Executive Director or the Board of Trustees. See also Alcohol at Events policy and procedure.

No illegal drugs or illegal activities will be allowed on the premises.

As noted elsewhere, a meeting organizer may charge a fee to attend their event. Soliciting or peddling to participants is allowed in the meeting rooms, but not outside the meeting rooms.

Signing of petitions is permitted within meeting room spaces but not outside the meeting rooms. It is also permitted outside of the library, provided it does not impede use of the library. See also the Soliciting, Free Speech and Fundraising Activities policy.

A sign on the door or wall outside the meeting room, indicating the name of the meeting, is allowed; however, directional signs about the event elsewhere within the library are not.

Interfering with the ability of patrons and staff to use the library is prohibited. This would include, for example, approaching patrons to persuade them to come to a meeting or having a sandwich board advertising the event outside the meeting room.

Setting up for events the evening prior to the event is discouraged due to security concerns and cleaning needs.

The library reserves the right to cancel or refuse use of the rooms at any time.

Permission to use these rooms does not constitute sponsorship or endorsement by the District of the group's policies, views or beliefs.

Computer software and hardware is to be used in its current state. No add-ons are allowed. Use of flash drives is permitted. Patron computers can be connected to the District projection system.

Reservations

Reservations can be made online by patrons who: (1) have a High Plains Library District library card, (2) have an email account, and (3) create an account on the District's "Spaces" program.

Patrons who do not have a library card can make a reservation by calling the District's Virtual Library at 1-888-861-7323. The patron does need to get a library card when the patron comes in for their meeting.

To assist library staff in responding to questions about the event, the patron should include the name of the sponsoring organization and contact information.

The person reserving the room is required to check in at the service desk with their library card prior to the start of their meeting.

If another person in the group wishes to assume the reservation, they must present a valid library card and be willing to accept responsibility for the room deposit.

Persons without their library card must present a photo ID or be able to establish that they have a valid library account.

A room reservation will not be held beyond 30 minutes of the scheduled start time.

Occasionally, the library district must cancel room reservations because of inclement weather or road conditions. The district will make a reasonable effort to notify the patron about the cancellation using the information they provided.

Frequency of use

Room can be requested up to 45 days prior to the event.

A patron may have up to 10 active reservations within the 45-day period.

Rooms may not be scheduled for any ongoing, regularly scheduled meetings/events, except for a series of sessions that are part of one event.

Room maintenance and supplies

Library staff will place tables, chairs and equipment in the room. Room set up is done by the group using the room and must be returned to original condition when the meeting is over.

Library staff can provide some level of support and answer questions about how to use the equipment. Patrons are expected to have some level of familiarity with how to use computers and projection equipment.

The library provides cleaning items such as trash bags, cleaning solution and a vacuum. All other supplies (coffee, cups, napkins, flatware, etc.) must be provided by the organization or individuals using the room.

Courtesies to staff and patrons

The patron should allow at least 10 minutes before the library closes for room inspection and check out.

When cancelling a meeting, the patron should contact the library immediately. This is so that other patrons can reserve the room.

Any publicity concerning the event/meeting should include the name of the sponsoring organization and a contact person. Doing so will direct any questions concerning the meeting/event to the organization which is best suited to answer any inquiries that may arise about the meeting/event.

Study rooms

Study rooms are available on a first-come, first-served basis during regular library hours.

Study rooms must be vacated before the library closes.

Reservable study rooms can be reserved for a maximum of two hours. If no one is waiting to use it, the time can be extended.

Online meetings

The District provides a service for online meetings. This can be done through the MyLibrary website or by calling the Virtual Library at 1-888-861-7323. The patron needs to have a High Plains Library District library card, a computer with an Internet connection, a microphone-in and audio-out.

Non-residents

Individuals who do not reside within the High Plains Library District boundaries can reserve and use District meeting rooms. It is necessary that they obtain a High Plains Library District library card.

Minors

An adult (age 18 and over) must be present while the meeting room is in use.

There is no age restriction on who may *reserve* a meeting room.

Study rooms are available to all ages. For children (under age 12), a parent must be present in the library.

Pandemic Disease policy

An epidemic is the spread of a disease rapidly and above the normal level through one or more communities. A pandemic is the worldwide spread of a new disease.

In an epidemic or pandemic, the balance is between safety (of public and staff) and the role of libraries as a key gathering place and resource in the community. In evaluating actions to take, the District considers (1) resources to provide guidance (2) decision-making authority and (3) broad strategies for addressing the threat and spread of the disease.

Resources

In cases where the District is allowed *discretion*, the resources for assisting the District in making decisions are:

- Nationally – the Centers for Disease Control and Prevention (CDC) and National Institutes of Health (NIH)
- State – Colorado Department of Public Health and Environment (CDPHE)
- Local – Weld County Department of Public Health and Environment (WCDPHE)
- Libraries – Colorado State Library (CSL)

Authority

By the very nature of a pandemic, organizations may have limited or no decision-making authority. Federal, state and local governments may *direct* decisions through executive orders or advisories. Where there are discrepancies among these authorities, the District policy is to (1) abide by the most local authority and (2) take the course of action most likely to guarantee public and staff safety. Adjustments can be made based on unexpected circumstances.

Broad strategies

There are three broad strategies for addressing the spread of disease:

- Level 1 is to continue normal operations and to address through standard individual hygiene practices and increased cleaning of facilities.
- Level 2 is to reduce the number of large gatherings and practice social distancing (defined as at least six feet of separation).
- Level 3 consists of extreme preventative measures, such as closing down facilities, requiring the public and employees to shelter in place, and delivering library services online or by limited social interaction such as curbside service.

Whether libraries are identified as an essential service varies by community. The District follows Weld County government or health departments as the authority on this issue.

These broad strategy levels may not occur in order. The threat may be so severe that Level 3 strategies take place at the earliest signs. Conversely, as the threat of a pandemic is perceived to be lessening, these strategies may take place in reverse order.

The specific strategies for each level are described under the procedure for Pandemic Diseases.

Photography and Video Recording policy

Library facilities are a “limited public forum.” This means that many activities, such as photographing and video recording, are permissible because the library is a public facility. But, library staff can set limits of “time, manner, or place” for reasons of safety and the reasonable maintenance to maintain library operations. There are policies that apply to the public, staff, and media, as well as general rules of courtesy.

Public

The public can take photos or videos in any public area. This does not apply to restrooms or staff areas. Photos and videos are permissible in meeting rooms, if this is approved by those using the room. Photographic equipment such as tripods or lighting, unless approved by library staff, is not permitted because of potential safety concerns. Photographing and video recording cannot interfere with the library staff’s ability to conduct business or present a safety risk.

Staff

In order to provide some level of privacy for patrons all locations have posters to indicate that a patron’s presence at an event permits staff to use their likeness in photos and videos of the event. The poster asks patrons to notify staff if this presents a concern.

Media

Photos and videos by the media are welcome. Because this often entails the use of bulky equipment, the District asks that arrangements are made with library staff in advance to ensure that conditions are kept safe and that library operations are not disrupted.

General

In addition to policies noted above, the District asks that photographers refrain from disturbing other library users, and from taking photos or videos of specific copyrighted materials for the purpose of redistribution.

Posting and Distribution policy

The High Plains Library District actively supports the American Library Association Freedom to Read and the Freedom to View statements.

In keeping with these statements, the Library will accept materials from individuals or groups who wish to disseminate information to the Library's patrons within limitations of District procedures.

Limitations

- Single copies of postings
- Posted no longer than one month
- Priority given to local events, non-profit organizations, local service offerings
- Only non-partisan election materials
- Materials left for distribution without approval may be discarded

Non-endorsement

Use of Library facilities, including grounds, does not constitute endorsement of the materials or an event by the High Plains Library District.

Security Cameras policy

The District seeks to strike a balance between guarding patron privacy while ensuring reasonable standards of safety and security. The District's primary objective in using security cameras is to protect the safety and security of patrons and staff. Property is a secondary concern.

Conditions on use

- Pursuant to C.R.S. § 24-90-119, the public is prohibited from viewing security camera footage that contains personally identifying information about library users. Under this statute, there are limited circumstances under which this information will be disclosed. If the Executive Director receives a request from the public to inspect security camera footage, the requestor will be advised as to whether they qualify for any of the listed exceptions. Images are subject to Colorado Open Records Act (CORA) C.R.S. § 24-72-200.5 *et seq.*
- Security cameras are not monitored continuously by library staff.
- Security cameras will not be placed in areas where there is a reasonable expectation of privacy.
- Security cameras are not positioned to intentionally identify a person's reading, viewing, or listening activities.
- Only library staff who have designated authority can access security camera information.
- For cases initiated *by the District*, whether human safety or property concerns, the Executive Director or designated staff may provide security camera information to law enforcement.
- For cases initiated *by law enforcement* involving urgent human safety or criminal concerns, the Executive Director or designated staff *may* provide security camera information to law enforcement without requiring a warrant.
- For cases initiated *by patrons or law enforcement agencies*, the Executive Director or designated staff may provide security camera information to law enforcement when presented with a legal warrant, court order or subpoena stating the time and location.
- For cases initiated by the *Federal Bureau of Investigation (FBI)* under the Foreign Intelligence Surveillance Act (FISA), only the Executive Director can approve a request, or an Associate Director in absence of the Executive Director. Staff contacted cannot discuss any information about the request, except with those who are necessary to obtain the requested security camera information.
- Images may be shared with other library staff to identify person(s) who have been suspended and to take appropriate action based thereon.
- Security camera footage shall be retained pursuant to requirements promulgated by the State of Colorado. This retention period may be enlarged or shortened at the direction of legal counsel or as required by law.

Personal responsibility

The use of security cameras by the District does not supplant the requirement for patrons and staff to exercise personal responsibility as it pertains to their own safety and the security of personal property. Security cameras will not be monitored on a continual basis, and should not be relied upon to prevent, detect, or deter criminal or mischievous behavior. High Plains Library District is not responsible for loss of property or personal injury.

Service Animals policy

In compliance with the Federal Americans with Disabilities Act (ADA), service animals (including those in training) are welcome at the High Plains Library District. Animals that are not designated as service animals are not permitted in any library facility, unless they are included in an approved library program.

Service animal defined

“Service animal” is defined by the Americans with Disabilities Act (ADA) as any service dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability.

The work or tasks performed by a service animal must be directly related to the individual’s disability.

Service animal is limited to the animals defined under the ADA and does not include any other species of animal, wild or domestic, trained or untrained. Service animal does not include an animal used or relied upon for crime deterrence, emotional support, well-being, comfort, or companionship.

Requirements concerning service animals

According to ADA, library staff has the right to ask the animal’s handler two questions: (1) "is the dog a service animal?" and (2) "what work or task has the dog been trained to perform?"

The handler is not required to provide documentation about the service animal or to prove a disability. Service animals are not required to be licensed or certified, or to be identified by a special harness or collar.

Service animals must be on a leash or harness always, unless the use of a leash or harness interferes with the animal’s effective performance of its task. If the animal cannot be leashed or harnessed, it must always be under the handler’s control via voice, signals, or other effective means.

The animal’s handler is solely responsible for the supervision and care of the animal and must be in full control keeping the animal directly with them at all times.

Conditions for removing a service animal

The library retains discretion to exclude or remove a service animal from library property if:

- The service animal is out of control and/or the service animal’s handler does not effectively control the service animal’s behavior
- The service animal is not housebroken
- The service animal poses a direct threat to the health or safety of others that cannot be eliminated by reasonable modifications
- Permitting the service animal would fundamentally alter the nature of the service, program or activity

The animal’s handler will be responsible for any damage to Library or personal property and any injuries to individuals caused by the service animal. Anyone using a service animal on library property will hold the High Plains Library District harmless and indemnify the High Plains Library District from any such damages.

Soliciting, Free Speech and Fundraising Activities policy

High Plains Library District is dedicated to protecting the rights of library patrons, volunteers and staff. Our goal is to enable all library visitors to enjoy an inviting and comfortable atmosphere and to facilitate the use of library services and resources. This requires balancing free speech rights with the rights of others who do not want to be approached or have access impeded.

Soliciting and selling of goods or services

Soliciting, vending, peddling, product sampling and other interactions in pursuit of selling goods or services or entreating library patrons or staff are prohibited in the library, with these exceptions:

- Meeting room spaces
- Community Bulletin Board
- Artist's works of art
- Organizations with which we partner

Outside the library, the District can regulate soliciting on any property owned or leased by the District. Criteria for allowing these activities include:

- Non-profit organizations only
- Organizations that are partnering with the District
- The activity supports the District's mission
- Is approved by the Executive Director or Library Board
- Is regulated by time, manner and location, but not by content of message
- Must not hinder access to the library, pedestrian flow or harass pedestrians

See also: Meeting Rooms Policy, Meeting Room Procedures, Posting and Distribution Policy and Posting and Distribution Procedure.

Petitioning and free speech activities

Spaces outside of the library constitute a *public forum*, which means that free speech activities are permitted as long as they do not impede safe pedestrian flow, harass or bother patrons, or block access to library entries, exits or book return areas. Spaces inside the library constitute a *limited public forum*, which means that there can be restrictions based on time, manner, or location.

Free speech activities, because they are in the United States Constitution, have a higher level of protection than other activities such as soliciting and fundraising. Accordingly, the District is as supportive of first amendment activities as allowable within the restrictions of time, manner or location.

Examples of appropriate free speech activities include, but are not necessarily limited to petitioning, distributing leaflets and campaigning. These are permitted outside the library. Within the library, they are permitted only in the library meeting spaces. Photographing and video recording is permitted throughout the library. See also the Meeting Rooms policy and the Photography and Video Recording procedure.

The presence of canvassers outside of the library does not constitute the library's endorsement of the policies, beliefs, or political affiliations of petitioning persons or groups, nor does it constitute an endorsement of any candidate, or initiative.

Fundraising

Fundraising is limited to efforts conducted under the auspices or permission of the High Plains Library District Foundation. Ideas and suggestions should be sent to the Foundation Director.

High Plains Library District employees may engage in limited solicitation as well as fundraising on behalf of charitable organizations to other employees provided this is not done on work time, is not posted on MyHighPlains, does not involve the use of work email, and takes place solely in staff areas.

The library occasionally receives requests from patrons or staff to conduct or endorse fundraising events or to provide public space for donation collection boxes. High Plains Library District does not sponsor nor endorse the fundraising activities, including donation collection boxes, of other organizations. Public library space will not be made available for such activity. Exceptions to this require approval by the District Board.

Weapons policy

The High Plains Library District policy on weapons in library facilities is based on (1) state and federal law and (2) local ordinances which vary in each community.

Colorado statutes on firearms and weapons

State statutes on firearms and weapons appear in Colorado Constitution Article 2, Sections 3 and 13; Colorado Revised Statutes Title 18, Article 12; Title 29, Article 11.7; and United States Code USC 922. Provisions that most directly affect libraries appear below.

Open carry

- Any person in good legal standing can openly carry firearms. There are no laws expressly stating this, but the right is generally protected under Article 2, Section 3 of the Colorado Constitution, which states that “All persons have certain natural, essential and inalienable rights, among which may be reckoned the right of enjoying and defending their lives and liberties; of acquiring, possessing and protecting property; and of seeking and obtaining their safety and happiness.”
- Persons without legal standing:
 - (1) minors under age 18 (C.R.S. § 18-12-108.5)
 - (2) persons legally prohibited, such as convicted felons (C.R.S. § 18-12-108)
 - (3) persons subject to a protective order prohibiting firearms possession (C.R.S. § 18-1-1001; C.R.S. § 13-14-105.5)
 - (4) residents of other states that do not have reciprocity with Colorado. Reciprocity is the principle that residents of other states can carry firearms if that other state recognizes Colorado law.
- Persons without legal standing under United States Code 922:
 - (1) convicted or indicted under some crimes against state or federal law (also C.R.S. § 18-12-108)
 - (2) a fugitive from justice
 - (3) unlawful user of, or addicted to, any controlled substance
 - (4) adjudicated as a mental defective or having been committed to a mental institution
 - (5) illegally in the United States, or under a non-immigrant visa
 - (6) dishonorably discharged from Armed Forces
 - (7) renounced U.S. citizenship
 - (8) subject to a court order pertaining to harassment, stalking or threatening of an intimate partner
 - (9) has been convicted of domestic violence
- No license or permit is required for open carrying of firearms (Article 2, Section 13, Colorado Constitution).
- Open carry is not permitted in the following locations (C.R.S. § 18-12-105.5):
 - (1) federal property
 - (2) public transportation facilities unless the firearm is not loaded
 - (3) public and private schools and universities
 - (4) local businesses or organizations that prohibit firearms, if posted
- Local government entities may prohibit open carry in areas directly under their jurisdiction (C.R.S. § 29-11.7-104).
- Government entities cannot restrict a person’s ability to travel with a weapon in a private vehicle (C.R.S. § 18-12-105.6).
- A person is prohibited from unlawfully aiming a firearm at another person or recklessly or with criminal negligence discharging a firearm, or possessing a firearm while under the influence of liquor or a controlled substance (C.R.S. § 18-12-106).

Concealed carry

- A Colorado permit, issued by a county sheriff, is required to carry a concealed weapon (C.R.S. § 18-12-203; C.R.S. § 18-12-105).
- The state must issue a concealed carry permit to any applicant who meets these conditions (C.R.S. § 18.12.201 and 203):
 - (1) resident of Colorado
 - (2) 21 years of age or older
 - (3) not ineligible under federal law or C.R.S. § 18-12-108, which pertains to Colorado Bureau of Investigation duties
 - (4) not convicted of perjury
 - (5) not chronic user of alcoholic beverages
 - (6) not an unlawful user of, or addicted to, a controlled substance
 - (7) not subject to a protection order
 - (8) demonstrates competence with a handgun
- Concealed carry is not permitted in the following locations (C.R.S. § 18-12-214):
 - (1) federal property
 - (2) public schools
 - (3) buildings with permanent security screening devices (such as courthouses)
- Local government entities cannot prohibit concealed firearms of a licensed individual (C.R.S. § 18.12-214).
- The principle of reciprocity applies to concealed carry (C.R.S. § 18-12-213).

Local ordinances

- Greeley Municipal Code prohibits possession of “illegal weapons” which includes blackjacks, gas guns, metallic knuckles, knives with a blade longer than 3.5 inches, butterfly, gravity or switchblade knives.
- Evans Municipal Code prohibits possession of “illegal weapons” which includes blackjacks, gas guns, metallic knuckles, gravity or switchblade knives.
- Firestone prohibits carrying a concealed knife.
- Erie prohibits carrying concealed knives with a blade longer than 3.5 inches.
- Kersey defines illegal weapons as blackjacks, saps, clubs, bombs, firearm silencers, gas guns, short shotgun or shotgun with a barrel less than 22 inches in length, num-chucks, gravity knives or any knife with a blade 3.5 inches in length or longer.

District application

- The District does not prohibit the open carry of firearms in its facilities, provided that the person is otherwise not in violation of state, federal or other laws concerning weapons.
- As according to law, the District recognizes the right to concealed carry of a weapon if the person has a permit.
- Library supervisors or managers will contact the police concerning carrying of weapons or firearms if in their judgment there is a perceived level of risk or suspected violation of the law.
- The District abides by any local ordinances concerning weapons and will contact the police when there is a suspected violation.

Member Project Funding policy

The District performs the function of passing through property tax revenues collected for each of the Member Libraries. The District also provides services identified in the Intergovernmental Agreements (IGAs). The Board of Trustees may also make additional funds available to Member Libraries to support special projects.

The Board of Trustees will consider requests individually based on (1) available funds, (2) the extent to which the project meets established criteria, (3) whether the project meets proposal requirements.

Criteria

Member Libraries meeting the following criteria are eligible to receive funding to support special projects:

- The Member Library has a signed IGA with the District.
- The project has local financial support.
- The project aligns the Member Library's services and programs with those of the District.
- The Member Library works in partnership with the District in managing the project.
- The project should be proposed to the Board no later than September of the year prior to allow for inclusion in the budget process.

Proposal requirements

Project proposals need to include the following information as a minimum:

- Specific goals and objectives of the project.
- Dollar amount of the request.
- Information on how the project will improve services.
- Estimated schedule for the project.
- Measures being used to evaluate success.
- Next steps to be taken if the project does not succeed as anticipated.

Foundation

Member Libraries may also request funds from the High Plains Library District Foundation. This also can include assistance in grant writing. The Member Library should consult with the Foundation Director for process and requirements.

FUNDRAISING

High Plains Library District Foundation policy

The High Plains Library District Foundation was incorporated on October 25, 2000 as a non-profit 501(c)(3) corporation.

Mission

The mission of the High Plains Library District Foundation, adopted in November 2019, is to build a community of library lovers through increased collaboration, philanthropy, volunteer engagement, awareness and advocacy for the libraries of the High Plains Library District.

Non-profit designation

The Foundation is a non-profit 501(c)(3) organization and was reclassified to 509 (a)1 status in November 2019.

Memorandum of Understanding

The relationship between the District and Foundation is governed by a Memorandum of Understanding between the Board of Trustees of the High Plains Library District and the High Plains Library District Foundation Board that will be reviewed on an annual basis. See also the Memorandum of Understanding.

Fundraising

The Foundation will identify needs and priorities of the District for fundraising purposes and seek out the best opportunities for grants, endowments and other fundraising. Ideas and suggestions should be sent to the Foundation Director.

Foundation funds are used in support of branches, members, and outreach functions.

District fundraising is limited to efforts conducted under the auspices or permission of the High Plains Library District Foundation. Exceptions to this require approval by the District Board. See also the Soliciting, Free Speech and Fundraising Activities policy.

The Foundation distributes funds annually to the libraries.

Use of funds

Funds raised by the Foundation are used to support the mission of the District. Funds are not to be expended on non-District events or activities.

Foundation Board

The Board of Directors of the Foundation has exclusive control over the assets of the Foundation and contributing assets, within the limits specified in the Memorandum of Understanding. Other functions of the Foundation Board include: policy administration, financial oversight, fundraising and public and community relations.

Foundation Director

The Foundation Director is a District employee supervised by the Executive Director. The Foundation Director shall direct the operations of the Foundation in consultation with the Foundation’s Board of Directors.

The Executive Director is an ex-officio member of the Foundation Board.

Partnerships

Partnerships with private and public agencies should:

- increase exposure in the community
- achieve the mission and strategic goals of the District
- be of mutual benefit to both parties or enhance the District’s revenues.

Only organizations deemed appropriate and compatible with the mission, goals, and policies of the High Plains Library District will be considered for a potential partnership.

Volunteers

Volunteers are a valuable resource, providing extra hours and talents which cannot be covered by budget. Volunteers are held to the same principles and standards as library employees. Volunteers will not be used to replace another employee or impair the employment opportunities of others by performing work which would be otherwise performed by a regular employee.

Donations policy

The District accepts donations of funding, time, in-kind goods, intellectual property, real estate property and landscaping that meet conditions described in this policy. Donations of materials for the collection (books, audiovisual materials and periodicals) are limited.

The District accepts donations and loans of artwork. Policies concerning artwork are described under the Artwork policy.

Financial donations are typically given for general purposes. A financial sponsorship is typically for a specific event or project. Policies concerning sponsorship are described under the Sponsorship policy. Loans refer to something that is given temporarily.

All donations, including funding, are accepted based on whether the donation is consistent with or furthers the District's mission and direction, and/or is compatible with the facility. The Executive Director makes this determination. Donations and loans are used to support the collection, programs, services or facilities of the District.

This policy and its companion procedure use the term donation, as distinguished from a gift. Gifts are typically given to an individual, whereas donations are given to an organization.

Funding

All funding donations are given to the High Plains Library District Foundation. Foundation funds are used to support programs and services of the District. This is further described in the High Plains Library District Foundation policy.

Individuals using District meeting rooms may charge a fee or sell products. The District requests that 15% of the receipts be donated to the Foundation. This is further described in the Meeting Rooms policy.

Local artists may be permitted to sell artwork in District facilities. Those selling their items are asked to donate 15% of the monies earned to the Foundation. This is further described in the Artwork policy.

Individuals may make large donations in support of specific events or projects. This is further described in the Sponsorship policy.

Large monetary donations may receive additional recognition when appropriate. Additional donor recognition will be agreed upon by the Executive Director, Foundation Director and donor. The donation acknowledgement will reference any special recognition that applies. The District cannot guarantee that the names will be posted in perpetuity. The District follows an established procedure for naming and unaming of facilities or spaces within a facility. This procedure is defined in the District's Donation procedure.

Volunteering time

Some District facilities accept donations of volunteer hours. The District does not accept Community Service volunteers provided through the court system. Volunteers will not be used to replace another employee or impair the employment opportunities of others by performing work which would be otherwise performed by a regular employee. The use of volunteers is also described in the High Plains Library District Foundation policy.

In-kind goods

Individuals from the community may wish to contribute goods in support of the District. The Foundation has a consistent procedure for acknowledging in-kind donors in a timely manner. See also the Foundation's Gift Acceptance Policy.

Intellectual property

The District accepts donations of intellectual property such as ideas, works, or inventions that are the result of creativity and for which one may apply for a patent, copyright or trademark. Donations must be consistent with and further the District's mission and direction. The Executive Director determines whether to accept the donation.

Real estate property and landscaping

The District accepts donations of property and landscaping. Acceptance is based on whether the property or landscaping is appropriate and consistent with the District's Facilities Master Plan. All such donations require the acceptance by the Executive Director and the District Board.

Books and audiovisual materials

The District accepts donations of books and audiovisual materials, but items are limited by number, condition, type (such as encyclopedias and textbooks) and publication date of materials. Very few donated materials are added to the collection. Some are recycled. Most are sold to a third-party vendor and the proceeds go to the High Plains Library District Foundation. Foundation funds are used to support programs and services of the District.

The District does accept some materials relating to local families and local history. Donations of historical or genealogical significance will only be accepted if the District has a signed Content Agreement. This agreement gives the District permission to duplicate the content in order to make it available through the various tools for information sharing. The District may be selective in accepting materials offered and is not obligated to accept or dispose of an entire collection. This is also described in the District's Genealogy Collection policy.

Periodicals

Some District branches accept donations of periodical magazines. These are typically not added to the collection, but are shared with other patrons in a magazine exchange.

Tax implications

Donations may be tax deductible, but this must be determined by the donor, not the District. The determination of the value of gift or donations is the responsibility of the donor.

Donations by the District

The District also *gives* donations to other organizations:

- The District may give withdrawn or donated materials. This is coordinated by the District's Collection Resources Department.
- The District gives out-of-warranty technology to organizations. This is coordinated by the High Plains Library District Foundation. Requestors must submit a Foundation Technology Donations Application form.

- For a designated period of time each year, the District accepts food donations. These food donations are then given to local food banks.
- The District may make donations of items such as unclaimed lost and found items or items no longer needed by the District.
- The District may provide funding to Member Libraries. This is described in the Member Project Funding policy.

Sponsorship policy

A sponsorship is a form of donation. As noted in the Donations policy, financial donations are typically given for *general purposes*. A financial sponsorship is typically for a *specific event or project*. Sponsorships differ from partnerships in that partnerships may provide support, but not any financial contribution to the other organization.

District sponsorship of events or projects

The District is a tax-funded agency. Revenues that the District receives from taxpayers are intended to support library services. Accordingly, the District generally does not use funds in support of other agencies. The District does consider sponsorship opportunities in individual instances. Considerations for District sponsorship of events or projects are as follows:

- The event must be within the District service area.
- Ongoing events will be reviewed for continued sponsorship annually.
- Is the event free to the public?
- Does the event have a high profile?
- Does the event support literacy or promotion of community resources efforts?
- Is the event supporting a community of particular priority to the library at the time?
- Does the organizing entity have a mission that complements the District's mission?
- Does the District have a partnership relationship with the organizing entity?
- Is this a larger organization, such as a school district, or an individual school?
- What are the sponsorship costs?
- What direct benefit does the District see as a result of providing sponsorship?
- How will it reflect on the District brand?

The District may offer to support the event in other forms such as providing a “prize” packet, providing promotional support, or purchasing booth space to both support the effort and promote the library.

District acceptance of sponsorships

The District will accept, and sometimes seeks, sponsorships from individuals and organizations. These can be in support of programs, events, or the collection. Sponsorships are received through and managed by the High Plains Library District Foundation or the Community Relations and Marketing Department. Considerations for acceptance are established by those departments.

Collection sponsorships

The District will consider sponsorships from organizations wishing to provide funding for the collection. Considerations in accepting these sponsorships include:

- The sponsor is able to identify the topic area, but the District's Collection Resources Department will determine the specific titles to purchase.
- Whether the contribution is apt to result in a skewed or out of balance collection.
- These decisions will be in accordance with Collection Development procedures.

Approval

All sponsorship requests, to or from the District, must be forwarded to the Community Relations and Marketing Manager, the Foundation Director, the Associate Director of Public Services, the Collection Resources Manager, and the Executive Director for approval.

Recognition

Recognition of District sponsorship is negotiated with the organizing entity. Similarly, recognition of a sponsor for District programs and events varies, and will be agreed upon by the Executive Director, Foundation Director or Community Relations and Marketing Manager, and sponsor. Recognition of sponsors would be similar to those described in the District's Donation procedure.

Social Media policy

The High Plains Library District uses and encourages the use of multiple social media platforms.

Social media and public information

Social media is a subset of public information function and policy. Social media presents several challenges to public information:

1. Public information distribution is typically in the hands of a *few* individuals. Social media involves a *great number of employees* with different styles and perspectives. The challenge is maintaining a style and perspective that is consistent with the brand, views and objectives of the organization.
2. Comments a District *employee* makes on social media on personal time and on personal accounts have legal protection in Colorado law under certain circumstances.
3. Comments by the *public* have some level of First Amendment protection.
4. Social media *platforms* are private enterprises that control what is and isn't permitted, thus a potential conflict with freedom of speech.

This policy outlines the ways and means whereby the District uses social media while dealing with these challenges.

Purpose of social media

Social media serves several important purposes. Social media:

- is used to promote library initiatives, programs, and services and to communicate and engage with individuals and businesses online.
- is increasingly preferred over traditional public information sources to communicate immediately and directly with a target audience.
- extends the mission and vision of the District.
- is an extension of the District brand.
- can create a sense of community among library users.
- provides a forum for conversation about the District and its services.

Responsibility for social media

The District's Community Relations and Marketing (CRM) Department has responsibility for information posted on social media accounts.

The District's CRM Department grants access and authority to employees to post, comment, and share under the profile of the District. Under the guidance of CRM, employees can also start up new social media platforms that meet the organization's purposes. Employees who have been granted access to social media accounts have the following responsibilities:

- Following standards and best practices as determined by the CRM Department
- Accuracy in information content
- Representing the District positively and in a professional manner
- Maintaining a constant and steady presence on social media

Means of regulation

The District's CRM Department has several means to ensure that use of social media by employees represents the District appropriately. The CRM Department relies upon the following to provide a reasonable level of regulation:

- Social media platforms provide regulation of comments through their terms of agreement.
- The CRM Department provides standards, education, and coaching to employees for use of District social media accounts.
- The CRM Department monitors employee use of District social media accounts.
- The CRM Department investigates claims of inappropriate postings.
- The CRM Department works with supervisors in coaching, correcting or disciplining employees who have intentionally or unintentionally violated organizational standards.
- The CRM Department corrects or retracts employee posts on District social media accounts that violate legal or organizational standards.
- The CRM Department intervenes in situations in which comments by the public require guidance.

District social media accounts

Public information concerning the District, its employees and affiliates must not violate any laws or organizational directives, especially as they relate to discrimination, unlawful harassment, and illegal activities.

Some specific examples of prohibited social media conduct include posting material that violates copyright, or posting commentary, content, or images that are defamatory, pornographic, proprietary, harassing, libelous, or can create a hostile work environment.

Employees may not disclose any sensitive, proprietary, confidential, or financial information about the District social media accounts. This would include District inventions, services strategy or products that have not been made public or without approval of CRM department.

Personal social media accounts

Under Colorado law (C.R.S. §Sec. 24-34-402.5) it is discriminatory to terminate an employee who is engaging in any lawful activity off the premises during nonworking hours unless the restriction relates to a bona fide occupational requirement or is reasonably related to the employment activities and responsibilities of a particular employee or group of employees.

The CRM Department does not intentionally monitor employee personal social media accounts. The CRM Department takes no action regarding employee comments on personal social media accounts that come to their attention unless there has been a violation in the areas described above.

Just as with District social media accounts, District employees using personal social media accounts may not disclose any sensitive, proprietary, confidential, or financial information about the District. This would include District inventions, services strategy or products that have not been made public or without approval of the CRM department. Individuals may be recognized as District employees and the comments could reflect on the organization.

District employee complaints regarding alleged discrimination, unlawful harassment or safety issues of the District shall be made using the complaint procedures in the Employee Handbook.

District employees can be held personally liable for posts on personal social media accounts by organizations and institutions other than the District, and posts made on personal accounts are not protected by the District. For this reason, employees should use caution with regards to exaggeration, obscenity, guesswork, copyrighted materials, legal conclusions, libel and derogatory remarks and characterizations.

District employees engaging in personal use of social media are expected to make clear that comments as an individual are not representative of the District.

Use of the District logo, trademarks, or branding on personal social media accounts is prohibited.

PRIVACY AND IDENTITY THEFT

Privacy of User Records policy

Library borrowers are entitled to privacy in their use of the library and the collection. Library staff are responsible to ensure that information about library users, their library activities and use of the collection remains confidential.

Colorado Privacy of User Records statute

The District is governed in this policy by Colorado Revised Statute 24-90-119, Library Law – Privacy of User Records:

- (1) Except as set forth in subsection (2) of this section, a publicly supported library shall not disclose any record or other information that identifies a person as having requested or obtained specific materials or service or as otherwise having used the library.
- (2) Records may be disclosed in the following instances:
 - (a) When necessary for the reasonable operation of the library;
 - (b) Upon written consent of the user;
 - (c) Pursuant to subpoena, upon court order, or where otherwise required by law;
 - (d) To a custodial parent or legal guardian who has access to a minor's library card or its authorization number for the purpose of accessing by electronic means library records of the minor.
- (3) Any library official, employee, or volunteer who discloses information in violation of this section commits a class 2 petty offense and, upon conviction thereof, shall be punished by a fine of not more than three hundred dollars.

History:

Source: L. 83: Entire section added, p. 1023, § 1, effective March 22.

L. 2003: (1) and (3) amended and (2)(d) added, p. 2463, § § 17, 18, effective August 15.

Scope of the statute

District interpretation of the statute is:

- the scope of privacy extends not only to user records, but also to (1) use of the collection (2) library activity and (3) information about the borrower.
- the use of the word *shall* in paragraph 1 is an indication that this privacy is mandatory, with the exceptions in paragraph 2.
- the word *records* in paragraph 2 applies only to user records, defined as information that is on a borrower's library account.
- the word *may* in paragraph 2 is an indication that the District has some latitude in what is disclosed, dependent on reasonable operation of the library, consent of user, legal requirements, and access to the borrower's library card.
- the word *minor*, for the purposes of this policy, is defined by the District as anyone under the age of 18.
- the statute extends to anyone using the library who is not a registered borrower.

Assignment of permission

District interpretation of the statute is that a patron may grant permission to others to access the user's account. This permission (1) may be written by the patron at the time of registration for a library card, or (2) verbal consent given by the patron to staff at the time of registration or subsequently.

Parental presence

The parent or legal guardian of a minor must be physically present except when working with an institution, such as a school (1) at the time of registration or (2) when a minor wishes to obtain a replacement library card. For purposes of the library, the District defines a minor as anyone who is under the age of 18.

Access

According to the statute, a parent or legal guardian of a minor has access if they have the barcode number (or the library card). District interpretation is that this access is equal to that of the minor.

When the patron has granted access permission to others in the manner described above, District interpretation is that (1) it is not a requirement to have the library card or barcode number and that (2) granting of access extends only to information in the *user record*, and not to use of the collection, library activity, or information about the borrower. That information remains private, even to the parent or legal guardian of a minor, with the exceptions noted below.

District interpretation is that the amount of access to the user record can vary according to whether one is (1) a parent or legal guardian or (2) a peer, such as a spouse, sibling, or friend.

Parent or legal guardian access

Access granted to the user record for a designated parent or legal guardian of a minor includes the following:

- checking out new items on the patron's account
- renewing items on the account
- picking up a hold
- cancelling a hold
- adding a hold
- finding out what the patron currently has on hold
- finding out the patron's place in a holds queue
- getting a list of items checked out and due dates
- paying fines, including titles
- obtaining the minor cardholder's barcode number
- obtaining a replacement card
- changing information on the patron account
- resetting the PIN number
- deleting the patron record
- claiming an item has been returned
- claiming an item has been lost

Peer access (spouse, sibling, friend)

Access granted to the user record for a peer includes the following:

- checking out new items on the patron's account
- renewing items on the account
- picking up a hold
- cancelling a hold
- adding a hold
- finding out what the patron currently has on hold
- finding out the patron's place in a holds queue
- getting a list of items checked out and due dates
- paying fines, including titles
- claiming an item has been returned
- claiming an item has been lost

Access to the user record for a peer does *not* include the following. These must be done by the cardholder:

- obtaining the patron's barcode number
- obtaining a replacement card
- changing information on the patron account
- resetting the PIN number
- deleting the patron record

Minimum age

There is no minimum age required to receive a library card.

Exceptions

The District policy on privacy does not apply in the following instances:

- In the instances noted above, specifically (1) when a parent or legal guardian has access to a minor's library card or barcode number or (2) when the patron has granted permission to others to access their account within the limits described above.
- The statute permits disclosure when necessary for the reasonable operation of the library. District interpretation is that this is a case-by-case judgment of the Person in Charge.
- The library is not a place of refuge from law enforcement after being accused of committing an illegal act. See Patron Rights and Responsibilities Statement.
- When the library is presented with a subpoena or court order.
- When the policy conflicts with other laws, such as the first amendment right to photograph or videotape in a public space.
- Extreme instances where public safety or life and death issues are at stake.

District public information

During library promotional activities, efforts will be made to warn patrons of the activities and to gain permission of patrons before publishing names or pictures.

Identity Theft policy

This policy is intended to balance a patron’s access to library resources while at the same time protecting from identity theft. The District has in place the following practices to reduce the risk of identity theft:

- Photo ID with address verification is required to obtain a resident card.
- The cardholder must authorize whether there are others who can access the user record information. See also the Privacy of User Records policy.
- Persons without their library card must present a photo ID or be able to establish that they are the owner of the library account.
- The District will immediately delete a library card when the card has been reported missing, lost or stolen.
- Library staff may remove a library card from active status if there is a concern for irregularities, abuse, or sudden changes in borrowing habits. The cardholder will be contacted to confirm the activities before being returned to regular status.
- Library cards are shredded if not claimed within 24 hours.
- Autoexpiring cards not used after a period of time require reconfirmation of identity.
- Library cards are set to expire after five years.

The District also follows the Federal Trade Commission Red Flags Rule (16 C.F.R. Part 681). This rule applies to financial institutions and creditors with “covered accounts.” A covered account is one in which the risk of identity theft is reasonably foreseeable. This risk is historically low with library accounts but the District does comply with the four principles of the Red Flags Rule:

- Identifying an organization’s most likely sources of identity theft red flags. Red flags are suspicious patterns or practices. In the case of libraries, this would be most apt to occur with an identification that doesn’t look genuine.
- Procedures to detect possible fake, forged or altered identification.
- Actions the organization will take when red flags are detected.
- How to keep current to reflect new identity theft threats.

Personal Information Protection policy

The protection of personal information is a requirement under Colorado law (C.R.S. §24-73-101 et. seq.). This policy outlines the main features of the law, and the District application of those laws.

Colorado's data protection statutes

Major provisions of the state's data protection statutes are as follows:

Personal information. C.R.S. §24-73-103(g)(I)(A)-(C) defines personal information as a resident's name *in combination* with other personal data elements relating to the resident such as:

- (A) Social security number; driver's license number or identification card number; student, military, or passport identification number; medical information; health insurance identification number; or biometric data.
- (B) Username or email address, in combination with a password or security questions and answers, that would permit access to an online account.
- (C) Account number or credit or debit card number in combination with any required security code, access code, or password that would permit access to that account.

Personal identifying information. C.R.S. §24-73-101(4)(b) defines personal identifying information as *individual pieces* of data that are highly sensitive: a social security number; a personal identification number; a password; a pass code; an official state or government-issued driver's license or identification card number; a government passport number; biometric data; an employer, student, or military identification number; or a financial transaction device.

Data disposal. C.R.S. §24-73-101(1) requires government entities to develop a written policy for the destruction or proper disposal of paper and electronic documents containing personal identifying information once that information is no longer needed. This disposal is by shredding, erasing or modifying the personal identifying information to make the information unreadable or indecipherable through any means.

Security practices. C.R.S. § 24-73-102(1) requires government entities to implement reasonable security procedures and practices. For paper documents, this could be a locked room or locking file cabinet. For electronic information, this could be secure web forms, encryption, or limiting access to staff with a certain level of authority. In addition, these required security practices apply to third-party vendors. Entities must clearly outline in contracts specific required security practices and what third parties must do in the event of a security breach.

Security breach notification. C.R.S. §24-73-103(2) requires government entities to provide proper notice to law enforcement and individuals when a security breach of personal information has occurred and outlines specifics of when, how, and who should receive notification. If the security breach is with a third-party vendor, the government entity is responsible to notify individuals affected. If the breach involves more than 500 Colorado residents, the entity must notify the Colorado Attorney General; if more than 1,000 Colorado residents, the entity must also notify consumer credit reporting agencies.

District application

Data disposal. The District retains records in accordance with the Colorado State Archives Special Districts Records Management Manual, described under the Retention policy.

When paper or electronic documentation containing personal information of patrons or staff is no longer needed the District destroys or arranges for the destruction by shredding, erasing or modifying the information in such a manner as to render it unreadable.

Security practices.

- The District will work to avoid or minimize the capture or storage of patron personal information.
- All personal information is confidential and will not be given to any other agency or organization. It will not be used for any purpose than that prescribed by the library.
- This does not apply when necessary to comply with legal processes, or when use of library services violates the terms of District policy.
- This policy does not apply to information that patrons may provide to websites or services a patron may use as a result of using the District’s websites, programs or services, such as gaming systems.
- Library public computers are rebooted between every use to purge information about activities on those computers. A patron concerned about the privacy of a computer session can request that staff reboot the computer at the end of a session to erase the cache memory immediately.
- The District documents all sources used that may store personal information. Security is maintained by one of the following means: (1) managed by a third-party vendor; (2) user accepts terms of service; (3) data is purged between uses.
- The District regularly seeks feedback on gaps and develops action plans to address these gaps.

Security breach notification. In the event of a security breach, the District has an established procedure to determine and document the nature of the breach and number of individuals affected, post a notice letter, and notify the appropriate authorities.

As with all policies, while the laws apply, practices identified in this policy may not be the practice of member libraries.

Mobile, Outreach, Virtual Services and Events & Experiences Services

In 2020, the Outreach Services Department was reorganized to reflect their expanded duties. They were renamed the Mobile, Outreach, Virtual Services and Events & Experiences Services (MOVE) Department.

Functions

The function of each unit within MOVE is as follows:

- **Mobile Services.** This unit delivers library services using four District vehicles.
- **Outreach Services.** This unit extends library services to various community agencies and non-library locations, such as schools, day care centers, recreational centers, senior centers and immigration centers. These residents typically have some kind of barrier to using traditional library facilities. The barriers may be geographic, such as small, rural or isolated communities of the District. The barriers may also be economic, linguistic, or physical.
- **Virtual Services.** This unit handles and routes most of the phone calls that come to the District. They answer many routine questions, as well as providing reference or instructional assistance to residents who may prefer to receive instruction via the phone, chat or email. Additionally, they provide internal customer service to District staff.
- **Events & Experiences Services.** There are programs and events in all of the District's locations. This unit manages the large-scale, major events of the District or on-site events. These were formerly a function of the Community Relations and Marketing Department. These events often make use of the District's PopUp vehicle.

Outreach Services methods

Outreach Services makes use of several methods to deliver services – providing rotating and deposit collections, making bookmobile stops, partnering with local service organizations. The characteristics of each of these methods is described below.

Bookmobile stops

- Bookmobiles may be scheduled to stop at locations that are beyond a reasonable travel distance from a library building location. Stops are made at community gathering locations.
- Service will be provided on an individual basis rather than to a group, i.e., classroom. The most frequently requested books will be carried. Staff will fill special requests promptly using interlibrary loan when appropriate.
- Provide other library services at their community stops such as computer use, wi-fi access, printing services, technical help, readers advisory and programs, in addition to book materials.
- Bookmobile visits are typically scheduled every two weeks and of sufficient length to offer professional advisory service.

Deposit collections

- The facility for the deposit collection is not the property of the District. Maintenance and insurance are the responsibility of the group or agency providing the facility.
- Deposits may be located in a community where there is no bookmobile service or where a supplement to a bookmobile stop is needed.
- They are also provided to schools to help supplement classroom access to books.

- Basic collection of books will be provided by the District as a long-term loan. The size of this collection will be determined by the number of patrons and the size of the facility. Deposits providing study facilities will be provided basic reference books. Short-term rotating collections may be provided to maintain vitality in the collection at the deposit. Selection of the materials will be made by the District staff taking into consideration those requests of the local volunteer staff. Insurance covering the materials placed in the deposit is the responsibility of the District.

Circulation policy

The High Plains Library District derives much of its revenue from property taxes paid by residents of the District. Accordingly, all resources are for their benefit. The District does provide resources to non-residents on a more limited basis. There is no charge for lost cards.

Types of library cards

The High Plains Library District provides library cards with varying levels of access.

- *Resident*: full access to all resources issued to (1) residents of the District; (2) individuals who own or lease business space within District boundaries; (3) non-residents of the District who teach at a school district inside District boundaries; excludes academic instructors.
- *CLC (Colorado Libraries Collaborate)*: limited access to resources to non-residents who pay taxes for Colorado library services.
- *Limited*: limited access to resources to residents who do not have necessary identification to receive a resident or CLC card. These patrons may be upgraded when they are able to provide identification.
- *E-access (Electronic Access)*: limited to computer use and downloadable materials only. Identification is not required. Minors must be accompanied by a parent when obtaining any card.
- *Organization card*: issued to organizations willing to assume financial responsibility for their staff to obtain library materials for use in their organization.

Lending periods and material limits

More detailed information on lending periods and material limits can be found in the HPLD Sierra Service Desk Circulation Guide.

Registering for a library card

Residents and non-residents can obtain a library card at any District location. Photo identification with correct address is required. If the photo identification does not include correct address, a second form of identification with the correct address is required. A physical address is needed to meet [Fair Debt Collection Practices Act](#) secure communication needs.

For minors (under age 18) the parent or guardian must complete and sign an application form on behalf of the minor. The parent/guardian and the minor must be present when the card is issued, except when working with an institution, such as schools.

Acceptable forms of photo identification

- Driver's license
- Permanent resident card
- Colorado digital ID
- State ID
- Military ID
- Passport
- School ID
- Consulate card

Acceptable forms of secondary identification

- Voter registration
- Car registration
- Utility bill, phone bill, rent, or mortgage receipt

- Mail addressed to patron at current address
- Printed checks with current address
- Any other legitimate legal document showing name and address

Interlibrary Loan policy

The High Plains Library District networks with other libraries in the state and nation to lend and borrow materials. This is called interlibrary loan.

This networking is important for these reasons:

- It allows a resident to request library resources not owned by the District.
- It extends the volume of materials available to patrons beyond what can be provided in any local collection.
- It allows patrons to access materials that may be rare or out of print.

The District primarily uses two services for accessing these materials:

- Statewide, the District is a participant in the Prospector network.
- Nationally, the District uses OCLC WorldCat.

The term interlibrary loan is used in two ways: (1) it can be used *generally* to refer to any items outside of the District's holdings; or (2) it can be used *specifically* to refer to items that cannot be obtained from the Prospector region and require staff intervention to obtain the items from libraries outside of the Prospector region.

The District follows the national interlibrary loan code.

Who can use the service

- The patron must have or obtain a Resident status library card.
- Non-residents (CLC library card) must request interlibrary loans or Prospector items from their home library.
- Limited card or e-access patrons must provide photo ID and address verification to obtain resident status.
- The patron may not have fines or fees on their account in excess of \$7.50.

Prospector

- The Prospector network includes libraries in Colorado and Wyoming.
- Patrons may request Prospector items directly through the Prospector link in the District catalog. Prospector requests are fulfilled by a participating lending library without requiring approval by District staff.
- There are no fines for Prospector items, but there are fees if a Prospector item is lost.
- Items that cannot be found in the District collection or Prospector can be requested through the Interlibrary Loan service.
- Prospector is the preferred source for materials before using the Interlibrary Loan service.

Interlibrary loan borrowing

- The District does not charge a fee for the service, but lending libraries sometimes charge a fee which is passed on to the patron. If this is the case, the patron will be contacted by the District prior to borrowing the material to confirm they are willing to pay the fee.
- Materials owned by the District cannot be requested through interlibrary loan unless the only copies are lost or missing.

- Patrons may make requests directly through the WorldCat link in the Prospector catalog, by completing an online interlibrary loan form, by telephone, or by email. Requests are reviewed by staff before being approved for fulfillment, as the District may elect to purchase the item instead of borrowing from another library.
- Interlibrary Loan staff does make the effort to redirect items requested through Interlibrary Loan that can be obtained from District libraries or Prospector.
- A patron can have up to five active requests at a time.
- Due dates for interlibrary loan items are determined by the lending library. There are no renewals for interlibrary loan items.
- Fines are \$1.00 per day for overdue interlibrary loan items.
- If an interlibrary loan item is overdue, no other requests are processed.
- If an interlibrary loan item is lost or damaged, District borrowing privileges are suspended until the fee is resolved.
- For items borrowed and returned, the patron must wait 30 days before requesting the same item again.
- The length of time to obtain an interlibrary loan varies, depending on whether a lending library can be located, the location of the library and whether the item is on the shelf. The District will contact a patron if unable to obtain the item in a timely manner.
- Items not picked up within one week of the date of arrival will be returned to the lending library.
- Interlibrary loan privileges may be suspended if a patron does not pick up three interlibrary loan items consecutively or within a six-month period.

Interlibrary loan lending

- The lending period for interlibrary loan materials requested by other libraries is six weeks, with one renewal permitted.
- The District will not lend downloadable electronic materials such as e-books or e-audiobooks, microfilm, newspapers, or book bags.
- Requests to photocopy magazines, journals, or genealogical materials will be completed in compliance with United States copyright laws.
- Borrowing libraries are liable for the cost of lost or damaged materials.

Specialty Checkout policy

In addition to items typically found in a library collection, the District has a service for lending equipment and specialty items. This service is different in these characteristics:

- Expensive equipment
- Limited supply
- Calendar-based – a patron reserves the item for specific dates
- Restricted as to who can check out these materials

Members and branches

Specialty checkout items are available in selected District branches and member libraries. This means that access is broadly spread throughout the District's geographic areas.

Items included

The District regularly evaluates the types of items in the Specialty Checkout collection, so these can change. Here are the items currently available:

- Laptops with portable hotspots
- Portable hotspots
- Telescopes
- Projectors
- Colorado State Park passes

Who can borrow

Patrons who wish to borrow specialty checkout items must meet the following requirements:

- Have a resident library card (photo ID and address verification required). This service is not available to patrons with a non-resident (CLC), limited, or e-access card.
- Have a current email address
- Be at least 18 years of age
- Have less than \$7.50 in fines and fees on the account
- Bring photo ID and library card to check out an item

Terms of agreement

- Items check out for seven days.
- A patron is allowed up to two reservations per month, per item type.
- A patron can only check out one of each item type at a time.
- The patron making the reservation must pick up and return the item.
- It is preferred to return the item to the library from which it was checked out.
- Overdue charges are \$20 per day
- Full replacement cost may be charged for unreturned items
- A patron will be denied use of the Specialty Checkout service if they have more than three abandoned holds of any item. An abandoned hold is defined as an item that has not been picked up within the 24-hour pick up window. This does not include cancelled holds by patron or staff.

- Due to potential damage of items, a patron must return Specialty Checkout items to the front desk. A patron will be denied use of this service if these items are returned in the book drop on more than three occasions.

Reasons for restrictions

This service is necessarily more restrictive than other items in the library collection. The items are expensive and there is a limited supply. In addition, the system is calendar-based. For the service to work, it is critical that items are picked up and returned on time.

Internet Use policy

The collection of physical materials in a facility are the staple of what constitutes a library. What the Internet adds to libraries is a universe of information that is easily accessible to many people at the same time, with the only space requirement being that of the hardware.

In order for a library to fulfill its mission to the community:

- Access to the Internet is provided at no charge beyond what residents pay in taxes.
- Access to the Internet is provided equally, meaning that any registered user can use the resources of the Internet in the same way that the resources of the physical collection are available to all.
- The three basic supporting documents used to achieve these principles are the American Library Association's [*Freedom to Read Statement*](#), the [*Freedom to View Statement*](#), and the [*Library Bill of Rights*](#).

At the same time, there are limitations to the Internet:

- Unlike the library's physical collection, there are no selection criteria by professional library staff. The Internet contains some information that is inaccurate and outdated. Patron use of the Internet carries with it the responsibility to evaluate the quality of the information.
- Internet platforms are privately owned sources, which means that they each have their own regulations for what information is permissible on their platform.
- Libraries are legally regarded as a "limited public forum" and that concept applies to the Internet, just as it applies to other products and services of the District. This concept is explained below.
- District Internet Use policy is affected by two laws: one national law (Children's Internet Protection Act) and one state law (Internet Protection in Libraries). The main concepts of these laws are explained below, followed by District interpretation and application of the laws.

In order to address some of the limitations of the Internet, the District provides the following:

- Library staff is available to help patrons navigate, identify, access, and evaluate resources on the Internet.
- Library staff provides classes to assist patrons in how to most effectively use the Internet and personal computer use.
- The District provides access to paid subscription databases. These offer the advantage that professional selection criteria by library staff have been applied, just as for other materials in the library collection.

Internet and limited public forum

The concept of "*limited public forum*" occurs in many places throughout this Policy Manual. This is a legal concept pertaining to first amendment protection of free speech. It is often contrasted to a *public forum*. A public forum has little restriction to free speech. In a limited public forum, free speech is not unlimited. There are reasonable restrictions provided that these relate to *time, place and manner*.

District policy on Internet use is governed by federal law (Children's Internet Protection Act) and state law (Internet Protection in Libraries). The main provisions of these laws are described below, followed by an explanation of District interpretation and application of these laws.

Main provisions of the Children's Internet Protection Act (CIPA)

This was signed into federal law in 2000 and is intended to allow Internet access while also ensuring security, privacy, and avoiding materials harmful to minors. The law was challenged by the American Library Association and American Civil Liberties Union in 2001. It was appealed to the Supreme Court. The law was upheld.

Main provisions of CIPA are as follows:

- Libraries must have an Internet safety policy and use technology protection measures (commonly called "filters") in order to receive E-rate discounts and Library Services and Technology Act (LSTA) funds.
- The policy must provide measures to restrict minors' access to inappropriate or harmful materials on the Internet; provide safety to minors on online communications; prevent hacking by minors; unauthorized disclosure of a minor's personal information.
- Materials that are obscene or harmful to minors must be filtered when the computer is being used by minors. These terms are explained in the law.
- The filter must be disabled without significant delay when the computer is being used by an adult, to enable access for "bona-fide research or other lawful purpose."
- The law does not require libraries to track Internet use by adults or minors.

Main provisions of Colorado Internet Protection in Public Libraries law (C.R.S. §24-90-601 et seq.)

This state law was made effective July 2004 and is intended to reflect the provisions of CIPA.

Main provisions of C.R.S. §24-90-601 et. seq. are as follows:

- Libraries are required to adopt and *enforce* Internet safety policies consistent with CIPA.
- Filters are required on any computers that are accessed by minors.
- Defines "harmful to minors" as a visual depiction that appeals to prurient interests, depicts actual or simulated sexual contact, and taken as a whole lacks serious literary, artistic, political or scientific value to minors.
- Defines minor as under the age of 17.
- Defines "technology protection measure" as technology that blocks or filters Internet access.
- Requires the brief disabling of filters for adults *or minors* doing *supervised* bona fide research if the computers are not in the children's area. This must be done without significant delay.
- No involvement of library staff is needed if the library requires age verification library cards.
- Filters in a children's area cannot be disabled.
- Libraries can filter access to materials in addition to those that are obscene.
- No action is required if a library has no budget for filtering software or cannot find free filters that meet the law's requirements.

District interpretation of CIPA and state law

The District interpretation and application of these laws is as follows:

- The default is that all computers in all District facilities have active filtering software.
- Temporary disabling of filters is required for an adult upon their request when it is for bona fide research. This must be done without significant delay. The filters are re-enabled when the patron has completed their session.

- In order to comply with a request to disable filters for bona fide research, the patron may need to be moved to another area. This would be, for example, when the computer the patron is using is in an area frequented by minors.
- Disabling of filters for minors (defined as under age 17) is permitted if they are doing bona fide research. The minor must be under adult supervision.
- Filters in a children's area cannot be disabled.
- Child pornography is illegal and therefore patently prohibited, even as bona fide research.
- Library staff are obligated to decline to disable filters if the computer is an area adjacent to a children's area or where the computer is apt to be viewed by minors.
- Infractions relating to violations of Internet use may result in loss of computer privileges or expulsion for various periods of time.
- The District does maintain a list of the types of materials that are blocked by the filtering software.
- Patrons using their personal computers and viewing materials identified in the law will be required to move from the area where minors are present.

Rules for use

To comply with the laws and the District's policy on patron behavior, those using the Internet are expected to abide by the following:

- A library card is required to use the District's computers for Internet access. Limited privilege library cards are available to those who are visiting, or whose library activity is limited to computer access only.
- Time limits for using the Internet computers are based on the library location and levels of business. During busy times, a one-hour time limit is enforced.
- Library staff are on hand to help patrons to navigate the Internet and evaluate information they find on the Internet. Staff can provide some basic instruction on how to get connected to the District's wi-fi. But staff cannot and will not provide detailed technical direction.
- All patrons must comply with the District's interpretation of federal and state law pertaining to the Internet.
- All computers in the District have filtering software.
- Patrons 17 years of age and older may request the filters be turned off in adult areas for bona fide research.
- Patrons younger than 17 years of age must have the parent, guardian or caregiver give express permission to turn off the filters. The parent, guardian or caregiver must provide direct supervision during the session.
- Unfiltered access is allowed only in adult areas and if the patron is engaged in bona fide research.
- Computers in the children's areas must remain filtered at all times.
- Attempts to bypass the filtering system are a violation of state law.
- Those using wireless access will not view materials harmful to minors or explicit sites in the children's areas.
- Filtering software is imperfect and may miss blocking some sites as well as incorrectly block other sites. Patrons are encouraged to inform library staff of either situation.
- Decisions for levels of Internet access are the responsibility of a child's parent, guardian or caregiver. Parents are strongly encouraged to work with their children to develop rules for Internet usage.

Inappropriate use

Patron behavior in District facilities is regulated by the Patron Rights and Responsibilities statement in this Policy Manual. Infractions relating to Internet use will result in loss of computer privileges or expulsion for various periods of time. Specific infractions include the following:

- Use of District computers and personal devices using the District's wi-fi service to obtain, transmit, or display photographs, images, or drawings which are in violation of the federal Children's Internet Protection Act and Colorado Library Law, C.R.S. §24-90-100 part 6.
- Violation of the federal law prohibiting the transportation of obscene matters for sale or distribution.
- Attempts to alter or damage computers, other digital equipment, software configurations, or files that are the property of District.
- Attempts to enter the District network without authorization.
- Intentional propagation and/or transmission of computer viruses.
- Copyright infringement violations.

Wireless service

The District provides free wireless network (wi-fi) access in all of its facilities, which permits Internet access from an individual's personal laptop or similar devices. Important things to know about this service:

- Before signing onto wireless network access, a patron must agree to comply with the District's terms of service.
- Library staff will provide basic instruction in accessing the District's wireless service, but staff are unable to provide technical assistance and no guarantee can be made that individuals will be able to make a connection to the wireless service.
- The District's wireless network service is not secure. It is the individual's responsibility to provide appropriate security settings to control access from other wireless devices. The District assumes no responsibility for providing virus protection or other security measures.
- Individuals using wireless access are expected to comply with other provisions in this Internet policy.
- If the patron is accessing materials that would be in violation of the laws or District policy, but it is for bona fide research, individuals may be asked to move to a different area in the library if a site being viewed is deemed inappropriate for the age level primarily served in the area.
- The District assumes no responsibility for the safety of equipment or for notebook/laptop computer or other wireless device configurations, security, or data files resulting from connection to the wireless access.

Printing

Printing and copying of materials from the Internet are another service of the District. The District allows for the printing and copying of a certain number of pages without cost. Details concerning printing are described in the Fines and Fees policy elsewhere in this Policy Manual.

Proctoring policy

The High Plains Library District provides exam proctoring service. This service is offered free of charge. There is no requirement that the student live within the boundaries of the District.

The following guidelines articulate the responsibilities of the student, the library and the proctor, and any disclaimers.

Student responsibilities

- Complete the [Proctoring Request Formstack](#) allowing for five business days for review and scheduling of an appointment.
- Determine that the library's resources, including installed software and physical environment, meet the exam requirements.
- Arrange for all necessary exam information to be completed in accordance with the institution's deadline (approval of proctor, receiving the examination, taking the test, returning the test before deadline).
- Pay for any expenses associated with the exam, such as prepaid envelopes or photocopying.
- Provide photo identification at the time of the exam.
- Arrive on time or notify the proctor if unable to make the appointment. Rescheduling will be at the convenience of the proctor if student is late or cancels.

Library responsibilities

- Contact the student within five business days after receiving the Exam Proctoring Request Formstack.
- Administer the exam during regular library hours.
- Verify the identity of the student with photo identification.
- Notify the student when exam information has been received, if applicable.
- Monitor student periodically during the exam.
- Enforce time limits or other requirements.
- Reserve a public computer in advance for online examinations, extend time as needed or reserve a conference room.
- Return the exam to the institution in a timely manner, if applicable.

Disclaimers

- Library will not offer walk-in proctoring.
- Proctor and library will not be responsible for unforeseen events, such as network or equipment failure, lost or delayed mail, proctor illness, or library closure.
- Proctor and library will not be responsible for completed tests not received by the institution.
- Proctor will not install special software onto computers.
- Proctor will not provide personal information, such as home phone number or social security number.
- Proctor will not arrange for special shipping services such as UPS, FedEx or DHL.
- Proctor will not allow use of cell phones or visiting with others during examination.

Programs policy

High Plains Library District programs are grounded in the District's mission and vision:

Mission: "Helping build community"

Vision: "High Plains Library District gives access to answers for every question."

Authority

The High Plains Library District Board of Trustees and Executive Director establish the policies that govern the District. The Executive Director has ultimate responsibility for program offerings, operating within established policies. The Executive Director delegates the design, development and delivery of programs to the staff, who operate within the essential principles, criteria and objectives outlined in this policy.

Scope of programs

A program is defined as an activity or event in a group setting intended to meet needs or interests of a target audience and build relationships between participants and the library.

Each program has a targeted audience that is generally age-related – children, teens and adults. Programs may also be multigenerational. Programs include lectures, discussion groups, computer classes, book clubs, community forums, visual and performance art, storytimes, interactive demonstrations, continuing education or major community-wide events.

The public can also provide their own programs, provided the program complies with the District Meeting Rooms policy. The District does not promote these private programs.

Essential principles

- Programs are intended to reinforce the District's mission in "helping build community", to contribute to the District vision to "give access to answers for every question" and to meet strategic plan objectives such as skill-building.
- As expressed in the District Meeting Rooms policy, all library-sponsored activities are free and open to the public. Library programs are sometimes targeted toward age-specific audiences.
- Programs should promote the library's collection and resources and should consist of the same breadth and depth of topics, stories and perspectives that are offered in the collection.
- Program topics should reflect community interests and should not be intended to persuade participants to a particular point of view.
- As with other District services, minors' access to programs is the responsibility of their parents or legal guardian.
- The District reserves the right to not schedule a program and/or cancel a scheduled program. Programs may also be cancelled due to weather, low registration or absence of the presenter.
- Programs may require advanced registration to ensure that adequate supplies and resources are available.
- Views expressed by a program presenter or participant do not constitute District endorsement. This also applies to online programs.
- No right of privacy exists relating to your passive or active participation in a public meeting.
- The District, in its collections, meeting rooms and programs, supports the American Library Association's Library Bill of Rights, Freedom to Read Statement and Freedom to View Statement.

- In order to make the most efficient and effective use of financial and staff resources, programs will be planned for the upcoming year.
- Programming procedures are separate and apart from this policy.

Criteria

Among the criteria considered when making decisions about a specific program will be the following:

- Degree of alignment with District mission, vision and strategic plan
- Community needs and interests
- Cost and budget
- Service area demographics
- Provides a forum for sharing of different perspectives
- Offers training and assistance with new technologies
- Fosters a love for reading and learning
- Fosters community awareness
- Safety and security of customers and staff
- Accuracy and timeliness of topic
- Supplementing or extending information found in library collections
- Promoting the library and encouraging use of its resources
- Presentation quality
- Presenter background and qualifications in content area
- Historical, cultural or educational significance
- Age appropriateness of content
- Availability of program space
- Availability elsewhere
- Programming is to be non-partisan and inclusive of a full variety of community perspectives
- When practicable, the Harwood model is to be used to ensure that programming decisions are driven by community input and needs
- Input from the Public Library Association regarding best practices to be considered
- Inclusive and diverse programming is encouraged

The District does not provide:

- Programs of a purely commercial nature or those designed for the solicitation of business for third parties
- Programs that specifically support or oppose any political party, candidate or ballot measure
- Programs that support or oppose a specific religion. Programs may address religious themes to educate or inform, but will not promote or proselytize a particular religious conviction.

Objectives

Each program will have a written plan that clearly defines goals, intended audiences, objectives and outcomes.

Library programs will be designed and delivered to provide learning experiences that meet at least one of the following outcomes:

- Participant gains awareness of the library’s resources and services
- Participant gains new knowledge
- Participant develops a skill
- Participant gains exposure to new ideas and/or diverse perspectives

Presenters

Library programs may be developed and presented by staff, or by hired program professionals. Generally, programs for children and teens are developed by staff; programs for adults generally use hired program professionals.

The District draws upon other community resources in developing programs and actively partners with other community agencies, organizations, educational and cultural institutions, or individuals to develop and present public programs.

Program professionals can submit requests to the District. These are considered using the criteria described in this policy.

In accordance with the Meeting Rooms policy, a library-sponsored event may collect funds to cover the cost of materials use, especially when the materials are given to a participant for their use.

The District may approve the sale of materials by a program professional as part of a library-presented program. This is in accordance with the Soliciting, Free Speech and Fundraising Activities policy exception concerning organizations with which we partner.

Controversy

In pursuit of the District mission and vision (“Helping build community” and “High Plains Library District gives access to answers for every question”), it is inevitable that some topics may be controversial or that a given program may offend some patrons. The District follows these principles:

- Programs are selected in accordance with the criteria and objectives listed above.
- On controversial topics, the District aims to present programs that encourage or assist community dialogue by including a variety of perspectives, or acknowledging other perspectives.
- While controversy is not avoided, the District does not present programs that are intentionally inflammatory or polarizing in the community.
- Responsibility for the exposure of minors to library programs rests with their parents or legal guardians.

Reconsideration

- The District welcomes expression of patron opinions about its programs, as this information can help identify gaps in offerings. Decisions related to the addition and deletion of programs will not be made solely based on customer feedback, but will be considered along with other relevant information gathered about the program.
- A patron who wishes to have a program reconsidered can do so following the procedure outlined in the District’s Programming Manual.

Accessibility

Pursuant to the Americans with Disabilities Act, accommodations for persons with disabilities will be made in accordance with applicable federal, state and local laws, policies, guidelines, directives and procedures.
